

452nd Knowledge Seekers Workshop; September 29, 2022 (Quick Index, Introduction, topic index ; Transcription, Proofed done; Need to do; Key Phrases, Words) (Auto transcription from Elias)

Testimonials of transmutation; STP transmuted; Souls talk with each other -objects sent and felt; Request to make children of Soul on Moon; Bring Soul of World Leaders into Linz - elevate; First to change is Pope; Christ remain King of Man; New Race by John - (H - H2 - H3 - U-235 - CH4); Mankind is just collection of intelligent gases; Bill Gates in Nuclear Industry - tried to take over KF; Waiting for tipping point of change; Pope calling in money form Catholics around world

Topic Index

More KS needed to come into Linz to perfect system; STP transmuted and confirmed; Objects sent via transmutation; Take things with on flight; Souls can talk to each other like phone; KS cannot see herself in mirror when Soul expands; KS requested to make children of Soul on the Moon; Test how group of 6 communicate through Soul; Pre-transmutation - cells separate; Tingling in body when cells expand and separate, they loosen up - last stage before full transmutation; Testimonial recording archival - change in humanity; Universal Systems getting built - do more; Transmutation of STP confirmed by touch on knee felt; Testing what happens when 1 family member wants to go somewhere else - how to get back; Have to complete whole process of transmutation before starting Satellite Souls - world peace; Need more people from world to come in; Once completed - mass produce EU; Through KS bring "Soul of World Leaders" into Linz, elevate and return back - see changes; First leader to elevate Pope to tell truth bring change; Putin - King Charles III; Italian PM; Only King to stay forever of race of man - is Christ; Test if people who don't speak English - after transmutation can speak it; We allowed Ukraine to expand to show can change it from inside; I always deliver what I promise; 20 people register to "Elevate Soul of World Leaders" - will also bring in some Satellites and UC; Then change religious leaders and industrialists to bring change; Elevate by Christmas - no more false Christmas - celebrate peace; Next accept U Community to earth; Marriage with stone or other creatures of U - by the Soul - mostly physicality will not work - different fields; People already have relationships with objects and other beings like animals - but hide it not to be a freak; To create a new cycle of life with different beings - might not be possible to make tangible; Experience soul of fish without having to eat it - future; Analysis of 5 different Gans's joined together what kind of being would they create - (H - H2 - H3 - U-235 - CH4); A new race; Heavy gravitational pull - near center of galaxy; highly intelligent and active - way too intelligent for man to understand; Exist close to field of Soul of Creator; Describes amino acid in detail - inverted; Size of plasma does not go by conditions of matter state and volume - but density and compactness of fields and their energies; Like electron and proton; Mankind is just a collection of intelligent gases; Using Satellite Souls we can bring leaders to Linz and

elevate them - but have to do it so that everybody knows it was because of the Satellites; KS life starts after leaving EU - but some deny it; My command is your wish through the soul; I can change leaders - but then comes back; Not a single solution - humanity is complex mix of chemicals; We'll put cameras and microphones in to see transmutation; The right way is to recognize we have a Soul within; Bill Gates entering Nuclear Industry - evil follows - hunger to own and control - tried to take of KF; KS need to learn how to use the Soul to elevate; Ex-Shah dressed incognito to understand his people; KF is underground scientific organization - when first transmutation is shown will blow out into world - no government will be able to hold it back; Backed by billions to enter politics in Iran - politics is not our job; KS complaining can't afford come to Linz - My Soul can accommodate millions; Change is done in specific way; You don't respect what you don't pay for; Opening of cells done through specific emotion - man as mammal had ability to separate cells in arm not to loose life; It's within DNA/ RNA; Dilution of cells - cells are just M fields; Need to learn to go through transmutation; Can change you to a fish if your Soul agrees; Transmute you to China you'll come out as Chinese understand language etc.; W leaders can't hide - Soul lead them to justice; Ayatollah - plow them like grass - regime desperate; Plasma Gas Unit is really mini version of Materials EU; Tipping point for change is coming - but things will happen at right time not minute before or after; Gas Unit will end kingship; When right time comes - change Europe by flick of finger - KS will spread knowledge - beyond imagination; Americans benefit by blown up gas pipeline to Germany from Russia - Europe now dependent on US for fuel and food - like World War II; Why not release T now - KS are bunch of abusers - didn't respect the MaGrav - Now KF decides the time of release; Waiting for the "tipping" time of change; Vatican calling in all moneys from Catholics around world - did Pope loose at casino - or they know the time of change has come - they want to have money on hand; Vatican gold reserves with Rothschild's in Berlin - Vatican back Catholic syndicate for EU; Far-Right in Italy blaming immigrants - Vatican supports harsh times for immigrants by secretly funding racism in Europe; Artists who use Gans's can approach KF for support and promotion of art

Introduction to 452 KSW - "Are we ready for the change"

When is this technology going to really come out into public? I think we all ask and wonder about this a lot. This workshop gives many hints. Mr. Keshe said, the showing of the "full transmutation" in a way that it cannot be denied, is the kingpin to the change. "Beam me up, Scotty." There are 2 parts to this, the first is the actual development of the technology by KS along with Mr. Keshe. It has to be done by humans. The second part is the world situation and whether or not it is at that turning point, so that when the appointed hour comes it spreads like wildfire across the planet.

The update on the technological development is that the transmutation of the STP has been achieved and confirmed by other people in the flight units. The wife felt the physical presence of her husband in her heart, and the daughter felt the loving touch of the father's hand on her knee. The Soul reached across time and space with the physical emotion, and showed its presence on the other side. This is the most amazing breakthrough. Even though it is hard to recognize it when you watch the testimonials,

because it is so subtle, the untrained mind has difficulty grasping its true meaning. We have to trust Mr. Keshe's expertise and guidance in this matter.

Another technological development was being able to send objects like an orange and an apple pie across the systems, that the other could feel and taste it. Then there is the Souls being able to communicate with each other during the flight. The most obvious implications are that we don't need telephones anymore, we instantly communicate with our Souls, which we do already anyway, even if we don't accept it as such.

So how close are we from transmutation on the technology side? A "switch" away. When the gentleman from Holland said he felt the cells of his body open up, begin to separate and expand, and the tingling sensation over the whole body, this was the sign Mr. Keshe was waiting for, so he stopped the process right there. The next step is the full transmutation of the physicality, and the start of the new life for mankind. Now that this side is ready, how about humanity?

The second part about humanity being ready to accept the new technology is scattered all around the workshop. Let's start with bringing the Soul of the world leaders to Linz for elevation of their Souls, and returning them back to make the changes within 7 to 14 days in their office. The welcome surprise of who is the first on this list, is the most devious leader hidden in the shadows, under centuries of lies, deception and abuse - the Pope. Which actually means the Vatican. But elevating the Pope to finally tell the truth will shatter the power structure of the world as we know it. And what will fill the vacuum - the new technology and the elevated Souls of the KS spread out across the world as Satellites. The plan is perfect.

He calls this moment, the "tipping point" of the change of humanity. Everything has to be absolutely perfect and ready - not 1 minute sooner or later - for the change to start. It's funny because he said, we were expecting it at 3 o'clock yesterday, but it didn't happen. Maybe it will happen tomorrow, we are all waiting. The bombing of the gas pipeline from Russia to Germany is adding to this tipping point. Now there is no way to get back, because there is no way to replace the gas for Europe - except - the new technology - which they still deny exists. This puts America in position of power, as it had during the Second World War, Europe has now become dependent on America for fuel and food. But this really means the British Petroleum will control - or are we back again to the King of England. Soul number 3 that needs to be elevated by the KS. The last question was, why has the Pope asked all Catholics to send their money back to Rome - are they worried the end is near? As they say, the darkest hour is just before the dawn. It seems Mr. Keshe wants to complete this by Christmas, so instead of the false Christmas - we celebrate the true Peace.

This last paragraph gathered together a lot of little pieces of the hidden structure of our world, that we have lived in denial of. Those who want total domination of the world are continuing their plan, as if we and the new technology don't exist. In our simplicity we see their plan by their actions, and not by how their controlled media interprets things. They are acting as if they have total power and nobody can stop them. Again from our

simple heart, we see that they are actually preparing the world for the change, without them knowing it. When the events merge at the "tipping point" humanity will have to decide whether to continue to suffer, or except the beauty of the new technology. Showing the transmutation will be the "proof" that many need to accept the change.

Keep in mind, that KF as an underground scientific organization, which is now being suppressed by certain governments, that when the transmutation is shown, will be blow out into the world, that no government can stop it. At that time the world will be running to us for the knowledge of plasma we carry, to help them with the transition.

So that's where we are - waiting. But really, should we be just waiting? Or should we be working hard to find and get to know our Soul. Mr. Keshe said, your life just begins when you leave the flight EU. For some it is joyful, others may feel it harsh, and still others may deny it altogether, because that is what mankind is used to. There is a important teaching here. For the ones who are doing the inner work and living correctly, they will experience the joy. And the ones who just start the journey have it harder because now they can begin to face themselves, and all what they denied. For the ones who live in denial - maybe they just go back to sleep. But again, the decision is ours to use this knowledge and power, to quickly enter into ourselves and become whole again. For those KS who already understand, that the essence of the KF teachings is service, will have no fear of the changes, rather will experience the joy of serving more.

There was another teaching in this workshop that confirmed how powerful this universal knowledge we are learning is. It was the creation of a new race. A KS gave the example of putting 5 different Gans's together, adding the elevation of our Soul and our love and intention, then what kind of being would be created. Mr. Keshe beautifully explained what kind of interactions it would create and what would be the result. I will leave it for you to study. But what was said about it is, "oh, we as mankind are just a collection of intelligent gases."

There is still a lot more in this workshop.

Thank you for listening.

Quick Index

This week a father and daughter together went through the system and brought a lot of confirmation of how close we have become to the final destination of full transmutation.

(We need as many of you as possible to keep coming to Linz so that we can continue to perfect our system and bring it to completion. Every time some of you come in, we learn more by testing different things. The different combinations of couples, friends, strangers, groups that are small and big, and groups with strangers present, who have nothing to do with the transmutation, all these conditions help us to understand more. We test everything we can. It will also help us in the future what to avoid.)

The first recording we are going to listen to is of the first couple from last week, (where we transmuted the STP. This recording was done some hours later so the initial emotion is gone, they had more time to digest their experience.)

(The second recording is from the father and daughter from Holland, which brought a massive step forward. By the looks of it, we are not very far from full transmutation. We can control the different aspects of the transmutation, of the STM and STP. At the moment, we can allow transmutation of the physical dimension, but (it remains within) the dimension of the Soul, and not the physical dimension.)

With what we've done this week, we are more or less one switch away from full transmutation. But it's too soon. (We want to make sure that we can take the whole body across, and not just pieces of it.)

Some of you might not understand the gravity of these two recordings. However, if you were involved as we are in setting up systems, then you would understand, that it's a massive change in knowledge. For you it may be just a voice, but for us, it's 40 years of research and development. When somebody says that, "I felt," or "I held," we know that you can't do it in the normal way. Scientists have tried this for centuries. Now the theory has become a technology and it needs to be fine tuned.

(Yesterday we had 2 Australians in the system, and they were able to pass an orange from one system to the other. For the first time, the person in the other system said, they could receive it, that they felt it, and could touch it. At first he thought it was a lemon, or an orange, but then he decided it's going to be a lemon. But the other guy actually sent him an orange. Nobody told him to do it. He decided it on his own, and he sent an object with his thoughts through the Soul to the other system. And the person in the other system actually felt it. They said they would record their experience. He said he felt the orange, but for some reason he was too busy with too many things in his head.)

(We achieved another breakthrough in transmuting matter state in the dimension of the Soul. It means now we can send your suitcase along with you, when we send you to the Moon. That way you won't land naked. But the thing is, will the suitcase be of any use to you. Because since you've gone through transmutation to fit the environment of the Moon, you might need two extra arm and leg holes, and you might be a different height and shape.)

My advice to you space travelers of the future, don't pack anything. Because most probably whatever you've packed will take a different shape, or would not materialize at all in the environment of the new plasma where you land.

The couple you see in this video have been married for 39 years. The gentleman recently had a heart condition, but we'll follow for the next few weeks and months to see what happens to them, and the totality of their experience.

(Pay attention to the emotions. The transmutation has touched the Soul and the physicality (P), which creates the emotion. The lady said, she could feel the vibration on the left side of the heart, and then on the right heart side, and it's very precise.)

You can listen to the recording. The summary of it is basically the same as was transcribed in the 451 KSW.

(When the lady said, "I felt it physically." It's because we timed it that way, it was not random. We control when the Soul transmutation comes.) (In this case I think it would have been the transmutation of the STP.)

Also last week, we allowed 2 people in 2 different systems to talk to each other. One said, "I'm sending you an orange." We wanted to know if the other side could feel and taste the orange. One sent a cake, but could the other you see and eat the cake?

In the beginning when we started the flight system (FS) you had to take everything off before you entered the system. After going through the developments, now the only thing you can't take in with you are electronics. Soon I'm sure we'll overcome that too.

Now people can talk to each other (during the transmutation), it's like on the phone. (The daughter sent the father a birthday cake, and the gentleman sent an orange. They say, they can feel the cake and the orange. We keep the body in one system, and send the object to be approached and collected in the other system. It's instantaneous postal service.)

This was tested deliberately with 2 - 3 different groups this week, and it works. One of the KS will tell his experience next week. In the second video recording of today the father and daughter will tell their experience. They saw the images of what the other person sent. (One felt the emotion physically, by a popping in the ears.)

(How do we translate these emotions? It's like when you stand and give a lecture to a thousand people, they are all speaking to you in their head, Somebody may be thanking you in their head, "what a beautiful knowledge." While others in the room, may be thinking and shouting at you, "what a load of rubbish," and it's all coming to you. (But nobody is aware of what's really happening), because up to now you only had silent physical bodies in front of you. The thoughts were unseen and unrecognized. Someone may be thinking, "what a beautiful dress," or "she should comb her hair," or "oh, look, the lipstick has gone a little bit far," or "oh, look at that one, the guy's tie is crooked.")

(Now with this new understanding of how to connect with your Soul, people will come to realize that you can listen to their soul. That through the Soul you hear each other. Then out of nowhere the guy puts his tie right. Or the lady cleans her lipstick. And the other one fixes her hair.)

(We can also become selective and target our thoughts to what we look at. A guy might think, "Oh I would like to take her out for dinner." And the lady might think, "Oh, I like to go out for a dinner." Then when they walk out they both go for dinner. This is the

reality, which is now in our hands. It's not theory. It's a technology. Now you can plan where you want to go when the body rests. You can send your Soul to work until the body gets up in the morning.)

(One of our KS says, she is able to decide where she goes with her Soul when her body goes to sleep at night. She decides who she's going to meet with, and she gets it right most of the time.)

(For KS who have been through the system, their Soul starts developing an understanding that it is out of the physicality. An old time KS could discuss clearly how he sees his Soul. Some speak about the light, others about feeling like that are in a bubble.)

There is a couple who are old KS and they have made a lot of MaGravs and other things and can talk about the T in their own way. (The gentleman says he could see a "foggy thing" in front of him, when his Soul expanded. He could explain exactly what happened. He said, he could not see his fingers. And strange enough for his wife, when her Soul expands she cannot see herself in the mirror. When KS come out of the system they confirm the expansion of the Soul, and how and what they see).

(We have received a request from a Knowledge Seeker couple who have been married for 30 years but could not have children. They would like to volunteer to be the first couple to create a child through the Soul while on the Moon. It's on the cards and we're looking at the possibility of creating the first child of the Mankind, on the Moon, through the interaction of the Soul). We have to look at its feasibility's, and the consequences of it. (?? - extension of the life to 200 years.) This is now a reality of science and technology.

You as members of a space organization, have managed step by step, to develop together a new technology. Where the man does not need another man to take him somewhere. Man takes himself around in his full dimension through his Soul. When he gets to his destination, he puts a soul in, and takes him around in a ?? variable condition, if he likes to.

(We are testing how KS can communicate with the Soul in the flight room, which is like a plasma dome. We put 5 or 6 people in the room and see how they communicate with each other. What do they hear from a particular soul. Some souls get instructions to do something with the transmutation of the soul, and then see how the others perceive it, what they receive, and how they would react to it. They can also send a message to just one soul, and the others can't hear it.)

Our team works relentlessly upgrading the system every week.

For the first time you hear the gentleman speaking about feeling his body opening up, and every cell is physically expanding. This means we just went to pre-transmutation, and that's where we wanted to stop. We did not switch to full transmutation. (Pre-transmutation is when you feel the separation of the cells of the body). They feel that

separation, lightness and openness, "ready for making the cells, as being a solid two energies, that they can be transmuted."

(When this gentleman clearly stated that he felt the cells separate, it's exactly when I switched the machine on. The most interesting thing is that, we can dictate and control that time.) I have a lot of switches and buttons available to me in the flight room. I can decide (whether to send a matter state or plasma inside. I can decide in every level how, and the way I want to send it.)

< Plays second recording with father and daughter - System is set one way, so the father can send objects to his daughter through the Soul and she feels it. >>

At the end of the recording Mr. Keshe explains some things but it is very difficult to hear. Basically he said, he was the first person to have physically gone through the pre-transmutation. Especially, since he spoke about the about the tingling in the body. After that it is just one more switch to physically transmute him over to the other machine. The 3 phases are the STM, STP, and the P. Mr. Keshe expected him to feel that tingling, it means the cells are being separated to be moved. (The .. emotion of movement.) Then Martin said he had the feeling of spaciousness. Mr. Keshe said, you felt the expansion, feeling like space. He confirmed and that he is feeling it more and more. Looseness, we are loosing you up, (for the final phase of transmuting the P). This is what everyone is waiting for. But we have to test it, we can't send you with half a body (jokingly).

<< End of Video recording. >>

As we heard from our KS, we are on the final phases of bringing in a new way for man to transmute, for man to think, communicate, and for man to travel in the depths of space. These recordings are of the folks who are the pioneers of true space travel. In the time to come they'll be the most valuable recordings, because it was the first time ever, that man could feel the opening of the cells before transmutation. They will be analyzed in different ways and will become archival recordings of the future science by KF. Things that happened and were touched, but they were yet not explained.

At the moment we are concerned with how we are going to expand the borders of the knowledge of the man about himself. Two new what we call, Universal Systems are getting built and should be completed in the next 2 - 3 weeks.

With the Universal systems we can set the G and M fields of the environment of the destination. (Then we can see how the being will fit into that environment). These new systems are extremely advanced, but as usual, they are not a final point, they're a stepping stone towards the next step in gathering more knowledge. They are what we call, cornerstones of the future transmutation and transportation. Once they come into operation we'll see a change in the environment. Not only in the flight room, but will touch most of the Linz Uno Exhibition Center. The fields will go beyond the boundaries of the building.

As you saw changes when you made your Gans's, we'll see the same. More birds and people will start coming to the center. We see people sitting on the fringes of the building, and finding peace.

In this process we'll (start transmuting the "Satellite Souls," Those who have registered.) Then we'll start the process of world peace. The process to make mankind ready to take that final step to become a "man of peace." The beautiful part of this will be, that we're all involved in it, and we are all part of it.

Confirmation of the Transmutation of the STP

We're getting a lot of knowledge that is getting translated into technology, and that technology will bring changes and the understanding of the Creation. If you listen to the recordings, you must have heard and felt in a very simple way, what we were waiting for. It was when the daughter said, that she could feel the touch of her father's hand on her knee. That feeling, was the confirmation of the transmutation of the STP, that we were waiting for.

In the first recording we heard the wife say she felt her husband's presence in her heart, first on the left and then the right. (We can transfer the emotion of the physical soul. The loving touch of the father with the daughter. These are the breakthroughs that we have been looking for, and we can expand on them.)

Next week we have people coming back who were here in the initial stages of the development. A brother and sister and their partners will come. How will we transmute the emotion of one partner to the other one, while that partner is in the other machine? This will bring us a lot of knowledge. It's going to be what I call, absolute bliss. Then we can bring the whole dimension into place.

One of these couples is very young, alive and bubbly. We can learn a lot from them. If you remember back in June they are the ones who felt like a mermaid and tried to get the others to swim. We're getting people who have already experienced it, and are coming back for a second and third time to develop further. We want to see how these partners will interact with the present system.

(We would like to have a family of 4 come in so we can study how they interact. What happens if one of them doesn't want to do what the others are doing? How will the souls react? Will they pull together? Would they stay together? Or does one disappear in the depth of space, or go to Mars, while the rest have already gone to the Moon. It would be a lone child on the Mars. How are we going to get her back? How are we going to bring all the family back together?)

These are the things that we have to learn before we go into the final phase. These are not actors and actresses. These are the people just like you who come in to add to the knowledge. We need many, many more of you to come in for the testing.

A lot people are switching over to be Satellites. (But first I have to complete the whole process of the transmutation before we can go to the Satellites. So I need people to keep coming into Linz. We need a lot of you to come in from all over the world to be here. Register and come in for the transmutation trials.)

Some of you come in with the idea that you are just going to transmute from one system to the other. No, it doesn't work that way, these are trials. We are developing the knowledge and we need to complete it (to make the transmutation easy for everyone.) This is as real as it comes. It's you who adds to the knowledge so that we can bring that change.

How fast is the human race going to bring this change about? Don't forget once we actually finish the final product, then it will go into mass production. (If you remember back months ago to the photos he showed of the spaceship's getting produced in the Chinese factories. This systems must be what they are going to be filled with.)

In the next few weeks, we'll bring the "soul of the world leaders" into the Linz center. I'll invite KS during the testing, that through their wish, they can bring them in. We can do this. It's not simple, but it is possible. Let's see how we can elevate them, and what information we can transfer to the world leaders. Then we allow the "soul of the world leaders" to return back to their physicality.

Then collectively all of us will monitor these world leaders and see how their words and actions change within 7 - 14 days. Through consensus we'll bring one of the world leaders to Linz, through the dimension of the Soul.

It's like when you wanted to transfer an orange to someone, or earlier, the daughter gave apple pie to her father. And the father gave his love and care to his daughter, and she felt it as a touch on her knee.

Would we be able to bring that touch and change the world leaders. This 100% possible. It's not a probability, (we can do it.) Let's see how we'll do it, and how they'll change. We have 4 or 5 options on the table. But one of the first people we want to bring in and change the soul, so that it speaks the truth, and then it will close many chapters, is the Pope. Many of us can reach him through the dimension of the Soul. Some KS in the past have tried it.

The other person in the world of power and diplomacy, if he will still be in power, is Putin. Another candidate is Charles the Third, of the United Kingdom. Let's see if he will abdicate and bring an end to the Monarchy, as all men have to be equal. The only King who will stay forever a King of the race of the man, will be Christ. The 4th person, which I think will bring us a new dimension, is the new Italian Prime Minister, Mrs. Meloni. Where far-right racism will be changed to accept "all races," which is in blood of the Man. We'll listen to all of your (suggestions.) We can bring all 4 of them to the 4 seats in the flight unit, with you as the KS in the center of the room.

We will announce (and put on our website), what we call, "the elevation of the soul of the world leaders session." We'll run this for a week or two. You're welcome to come in and collectively change the "Soul of the World Leaders," one at a time. We'll see what we saw with the apple pie, and what we saw with the love of the husband to be physically felt in the heart of the lover, his wife. We'll see how we elevate the Soul and knowledge.

In the coming weeks we want to test, to see if people who don't speak a certain language, for example English, then to elevate the Soul by way of transmutation, to see if they become fluent in English.

(You transferred the taste of the orange, the emotion of touch, the emotion of apple pie, and you transferred and transmuted love into the physical dimension of feeling that emotion. This cannot be (that much harder). Go to the transmutation and register and write in, "change of a world leader." We'll bring 20 to 30 of you in, because to be able to import and deliver all our wishes, we have to be a collective mass. Otherwise, the world leaders will be the only ones in the room.)

It'll be interesting to see how the soul of the Pope will interact with Charles, or Mrs. Maloni with Putin. (In this "World Leader's Conference" in Linz, we'll get the outcome within a few days or weeks, through their policies and work. Would Charles abdicate? Would the Vatican see the last Pope. Would we see the far-right wing become center line. And would one of the most aggressive world leaders understand the love of the humanity. Then you'll understand why we even allowed the situation in Ukraine to expand and extend, to show how we can change it from inside.

(This transmutation test is not to gather power, but to bring equality to all powers. As you know, I always have delivered what I promised. We will book at least 20 of you to be in the room, that we'll get an international consensus about which 4 leaders to select, in the essence of Totality.)

(During this test we'll open some of the Satellite lines of those who registered, and we'll bring in some of the Universal Council members through the same lines. Then we'll create a new world order, a new world condition, one that is peaceful and where the mindset of the population matches that of the world leaders. Because now every race and every person on the planet will have a say in the running of "One Nation." You will become the councilors of peace. There's only one problem with you who come in, that is, there'll be no chairs in the system. You'll have to decide how you'll accommodate each other, by standing in the room to serve humanity.)

(All those who are present in the room, including the UC and Satellites will bring this change about. By the very act of doing this we'll start to function as one family, and One Nation whose voice of every citizen is heard.)

Register yourself and just write in, "change of the leader," and our team will invite you on the appointed day. When you meet the soul of the Pope ask him, why does he allow the abuse of children. When you meet Charles ask him, why he thinks he's higher than

the others. Ask Maloni if the color of the skin is only a thought ?? Then ask Mr. Putin, why he is so aggressive. When is all this going to stop, because the human race is waiting to move on. This should have stopped in the 20th century. (Collectively, see if you can bring in the (new generation) of world leaders.)

(But remember, you are there not to judge these people, rather to elevate their souls. It'll be interesting to see how you Knowledge Seekers come in to change the world leaders. The next set of people we'll bring in after the world leaders, will be decided by the KS. Don't forget we need to bring in a religious leader, an industrialist, and maybe others who can bring the change to society. In a way, we rule through the STM to make everyone to be servant of the others, and not to be a King. And not to be a lion in the name of the Creator.

You've seen how gently I have brought the knowledge to be accepted over the past 3 - 4 months. Now it's time to gradually bring the change, that we came here to bring. That is to change the world leaders to become people of peace, and to make One Nation out of this planet by its citizens, and not by those who think they should rule.

Register yourself and come into Linz within the next few weeks it bring the change we all have been waiting for. We need to change (the thoughts) of those who think they are supposed to be our leaders, to understand that they are equal to us, and that they are here to serve. Through the Vatican we'll bring an end to the domination of religions. Through King Charles the Third, we'll bring an end to kingships across this planet. Through Mrs. Maloni we'll end racism. And through Putin, we'll end the wars.

(You are the only ones who can change it. You have to be in that room to bring this change. Be prepared, that when you come in, you come with a full understanding, that the changes for the human race is on the shoulders of every one of us.)

We'll try to do this by Christmas. I wonder, that if we can elevate the Soul of the Pope, would there even be (another) false Christmas? Or would we just celebrate to be at peace with each other as one race of the planet Earth. We don't need to have a holiday, which was copied from one religion to the next, and used to control the man, both through the soul and physicality.

I know what I'm doing, and I know where we're taking you. We are taking you to bring the change and peace around, to bring that position where all men are equal irrespective of color, race, and position. Then the hardest thing for the human race will be, to accept that all creatures of the Creator are equal irrespective of their position in the U, or how they appear as a soul or physicality. Let's see where are we going to take you in the next few weeks. And let's see how many more of you are here to bring the change.

Before we go for a break, one of our KS is in the hospital. We wish him all the best, and one of the fastest recoveries, so that he will be out and amongst us again. He knows who he is, and I wish him all the best for his recovery.

End of Quick Index Part 1 452 KSW

Q: If a stone has a soul, can the STM and the stone together create a new soul? If that's the case, what will marriage of the future be like, and cross species and so on?

K- In the future marriage on the physical dimension between the races of the universe, not all of them will be possible. But some of them will be impossible in the physical dimension. But in the dimension of the soul, it is possible.

If you look on YouTube, you'll find that there are people who are actually married to a stone or an object. There are a quite a large number of people who live with stone or other objects for years. Has the soul of the stone touched them? Or has the balance between the two, created that love and care. (We do that in a hidden way), because we don't want to be called, a freak. We do it with our dogs and cats, and other animals. Women especially do it with their jewelry. They put them on for life, and every time they look at it, they admire what they have. So it's already something that happens.

But would this condition create a new cycle of life, that would be tangible and visible to us, so that we can confirm it? Or it will (it just be that we are touched by the soul of the fields, and aware of the presence of its soul, but we cannot give a dimension of physicality to it).

(We had people in the system who sent objects to the other one. Did he feel the touch and the soul of the object that was sent to him, which was in the mind of the other person who sent it?)

(When you go to a shop that sells fish and if you want to taste it first before buying it, would you be able to taste it through the soul of the fish? But then, after tasting the pleasure of the soul of the fish, would you still want to eat it, as the pleasure through the soul is so much more than the pleasure of eating it.) Would we do window shopping of the souls?

(In China they have places where you choose a live fish and then it is sent to a neighboring restaurant to cook it for you. Instead of walking around and looking for a fish to eat, you would walk by and enjoy the souls of the fish, just by being near them. When we see the souls, then we don't need to fish.) As we learn more about ourselves, then we learn more about how the next cycle of life on this planet will be.

Q: John Bliven asked Mr. Keshe to draw five circles in a row on a white board. All the balls will contain Gans's. In the first ball, is Hydrogen, in the second Deuterium in the crystalline state, then Tritium, Uranium - 235, and Methane plasma gas from the new Plasma Gas Units.

(Then through our STM, once we free it, we'll connect it to each one of these balls individually, or actually to the materials inside. It would be just like when two entities create another soul. For example, with your intention you would put the (fields of your)

Soul into the H, and merge with that H. We would put the emotion of love, with the intent to create a higher form of H. Then we would have to create the heartbeat to make it dynamic. Then we could create a plasma field, which would be a light field within each one of these.)

The question is, if we are able to achieve that state, then what would each of these balls be able to provide us?

(I am thinking that with the first ball, with the H we could create an energy field like a Sun, which would generate heat and energy for us. From the Deuterium maybe we could create entire cities with it. From the Tritium we could make the city dynamic. With the U-235 I don't know, only that it is of a higher order. And also the plasma methane gas I am not sure.) But am I on the right track? (Mr. Keshe wrote "New Race" after drawing a circle around all 5 balls.)

K- (First of all what kind of environment and condition would allow such a life to exist? And what characteristics would this life have? (Maybe because of the U-235, it has a heavy pull, because he wrote "Gravity" next to U-235.) Because of the heavy pull, this life would have to be somewhere near the center of a galaxy.)

The structure you've chosen is a type of life. The 4 elements of amino acid - H, H₂, H₃ and U-235, which would be the central gravity for everything to hold on to. The CH₄ is enough to link into the Universal energy field through Carbon, or Carbon 14.

This kind of life is extremely heavy from the gravitational pull (of the U-235). We see these kind of heavy element centers more towards the center of Universes, but even heavier than this. You have to have the pull from these heavy fields, so that it can hold on to its position within the center.

These kinds of lives are extremely intelligent. These types of combinations allow life to exist nearest to the energy fields of the Soul of the Creator. (Just for humans to understand a little, Uranium is like Hydrogen in your periodic table. It's really not a heavy element, but this is how we can explain it to you.)

(Different combination of fields makes life in different ways. If you are in the center or in the outer boundaries of a galaxy, such heaviness of fields makes you aggressive. You become a taker, because you have a heavier gravity, it's like a cancer. You look for the metal, which can pull the amino acid. This is why in KF, when we look at cancers, we use the blood tests to find out which elements are involved.)

This life is extremely intelligent, regardless of how, or where it takes shape. This comes from the stability of the Deuterium and the agility of the Tritium, which results in intelligence, that is very active.

(I wrote down that this was a new race. If they were to appear on Earth, you would call them super, super, super intelligent people, and very active. Because the information on

the sub-elements is brought in, and through their interactions they would have a vast pull on information.

Most probably the human race would not be able to understand this life form, because it would be far beyond man's imagination in the physical dimension. (But on the Soul level ??) These kind of creatures will absorb a huge amount of radiation from the cosmos. That comes from the broad spectrum of the division and the number of the neutrons within the Uranium - 235. To sustain and keep the energy fields of the U - 235 in its position, you need to absorb a lot.

I can imagine how such a creature will live, where it could live, and what it needs to handle through its soul. It would receive the more powerful energies from the center, and pull more powerful energies from outside. Put it this way, human race would be a speck of dust in this environment, even that is too much.

(If you have create a shell around these balls, you would create a soul, that it could hold onto. This souls would be a new race.)

(Mr. Keshe now draws how the amino acid (AA) of this life would look. You would have H at the top, H₂, H₃, and CH₄ at the base of the Star Formation (SF). This would be an extremely active AA. It would create mayhem in the body of man. No doubt about it, it would cause death within milliseconds, just by the fields of it interacting within the structure of the physicality.)

You have 16 times the power of plasma, going from the CH₄ to the H at the top. The ratio between the CH₄ to H₂ is different, as is the H₃ to CH₄, but they are both about the same.

The system will try to topple over to create a new base between the H - H₂ - H₃, and the CH₄ will become a feeder at the new top. Usually the pyramid of the Star Formation points up, this one will point down, so, it creates a different dynamism. It creates an entirely different structure. The Carbon now becomes ?? 2 to 3, or 8 in a way, if you look at it.

(When you look at the size of a plasma, you usually follow the volume rule. The inner core of the sphere could be 1 centimeter, and the volume between inner core and the outer shell could be 2 centimeters. But (because it's plasma) the difference in the volume is huge. It's not the ratio of 1 to 2.)

The energy in the inner core of a plasma is vast compared to that in the outer core, which has a lot more volume. Because plasma works on the gravity field forces. Whereas in the matter state you work on the volume.

This is why, when you look at the electron and proton, the electron is so small and agile, and so dynamic. It has so much more energy to give, than the proton itself. They say it's a ratio of 1 to 2,000. While the plasma goes the other way, by field forces.

For a plasma, the tighter the material is, or the more compact it is, the more energy it has, and the smaller it gets. But like the electron it creates a bigger field, and has larger radius around proton, that it can capture it.

Try to understand the whole process, and not just look at the dimension of physicality. You have to understand the dimension of plasma, where it's not the size which counts. It's how much energy is in it, that will effect it. Another way to look at it is, you have a little toddler who is like a bullet and goes everywhere, while the old man sitting in the middle, trying just to watch and catch up. Even though he's much bigger and older than the little one.

When you look at the plasmas, and what kind of soul they can create, they're extremely powerful. So, for John's new creature, wherever it is, it's extremely tiny, highly intelligent, and quite active. And it's Soul will be amazing.

Finally he explained the SF of this AA, and why it's so dynamic. The field force of the CH₄, which is 16, has to move so fast that it does not get pulled by the U-235. That's why it passes the speed of light, not to be pulled in by the gravity of U235.

A KS said, this is new race that mankind made? And he jokingly said, not mankind, John made it.

Q: So mankind is just a collection of intelligent gases?

K- That is all we are.

Q: So we as KS can bring the soul of the world leaders into Linz, they do not need to actually come into the room, physically?

K- We can Satellite them in. That is not a problem. We have to bring them in to show the change. Otherwise, if we don't do it, then coincidentally, (they'll say the changes are due to something else.) You know how the human race works.

I said to the KS, that once you leave the center, your new life just starts. The new life is going to be joyful for some, and harsh for the others. Some even go back home and try to ignore it, because that's how they were brought up.

You'll find out, that your wish is my command. In a way, my command, is your wish through the Soul. (This happens to all of us, when for example, I want to know what my sister is up to, then suddenly she calls. It's because instead of dialing on the phone, my Soul made the call. Then she says, "oh, I was just thinking about you, and you called.")

A lot of KS will have a problem with this, but the more you practice and interact with it, the easier it becomes. (It's like the Apple phone App called "Siri." You just speak into the phone and it does what you want. Now "Siri" is your Soul. That's what you've got to

learn. No more "Apples," it's all bananas. But it has to be the "Siri" of the whole human race, collectively wanting peace to change the world leaders.)

(I can change the world leaders, as simply as drinking a glass of water.) But what would the human race say, "oh, this guy changed them, but wait till the next one comes." You have to change the soul of the humanity, not just a world leader, and that is part of it.

(Many people close to Putin have been killed over the past 6 months. Likewise, many of the opposition have been killed also. They are having accidents or falling out of the windows of hospitals. Have we seen the Americans doing it? Or others doing it? How come these things suddenly started now, but before 6 months ago nothing happened, none of them were killing themselves.) Can we reach the soul of those who actually plan these things, be it the world leaders or the others. This is the process of life, that we have to learn.

There are two ways open to us, and actually a third, which is using the mobile phone, and doing it electronically. We can also do it physically. And now we are learning the communication of our inner energy, what we call, the Soul. The Soul is faster than the mobile phone, which doesn't carry the emotion. So, when you tell a president to change, you can call him on a mobile phone, or you call him through the STM and change his emotion. There are a lot of things we can do, but you have to decide. Humanity has to do it on its own. (Does he mean that we are part of humanity, and therefore directly linked to the leaders, and we have the "right" to change ourselves. But as he is from the UC, that would be interfering in the earth's development. Or are we waiting for one of us humans to find enough strength and love within to, not to sacrifice ourselves - but rather to carry the fields of the others to make that change. Does it have to be through the right understanding and attitude?)

Q: (Is it to get the whole of humanity to contribute the same? Is it something that can be done through the social structure, or is it an interaction of the STM?)

K- It's not a single solution, it's a combination of.. Human race is a complex race, it's a complex chemical mixing pot.

First of all people have to see (the transmutation). We are going to put cameras and microphones inside the systems so people can see how the souls manifests themselves, and how they communicate with each other. Man has to see it.

(When you use your cameras, you only take a physical picture. For me it's different. I see a lot of things you don't. I get information that comes through the knowledge, some through the emotion, and some through understanding of the soul. But for you it's just someone sitting there.)

When they sit in front of me, I see their soul, and I know if the information they give me matches to the STP and physicality. This helps me to determine what needs to be changed

in the system. The majority of people coming out of the system don't like (to sit in front of me, because I see both the Soul and P, and I feel the emotion of it.)

(Some people come deliberately to prove they are more, that they cannot be touched, or that the system does not work on them. Sometimes they say, "Oh, my soul doesn't work." I want to know how you are crying with it at night. It's bringing an amalgamation of all of us together, to create a new race of leaders. All of us are leaders, not just one or two, and a few with a big bank account.)

Q: I think the whole human race experiences what you said, about thinking about somebody and then they phone us. We all know that conscious thought has a field strength, and can manifest and touch other souls on a soul level. So, is it just bringing about (the right) field strength .. ?

K- No, (that's the wrong way to approach it). It's the wrong way. I think the right way is to recognize that we have this Soul within us. When you recognize this power and this potential you have within you, and you use it the right way, then you can bring about the changes you want. (The key is to realize we have this power, then it's how we perceive, and how we adapt it to fit ourselves.)

(Recently I received a picture of the annual conference held by the Nuclear Industry here in Vienna. When I looked at this picture, I could never understand what Bill Gates has got to do with the Nuclear Industry. This man is so power hungry and now he sees an opportunity to be somewhere. Then, what would he influence? He has what I call, a complex structure within him. But why do we see a man who started in a garage, then built up a power base through his money, where now he influences all of our lives. He does it through our computers, effecting us through pharmaceuticals, and whatever else. And now, what has he got to do with the Nuclear Industry? (Did he ever understand anything about the atom, so for what reason is he there?)

(When I saw the picture, I called it, "a hunger for having his name on something." But, what is the game of this soul? And where are we going to see problems next? Because wherever he goes, he creates problems, as in the recent past. With the money he has, wherever he gets involved, means he dictates.)

Didn't he work hard enough some years ago trying to take over the Keshe Foundation? He sent his protégé, the other guy, to try to butter us up, and then to take over the Keshe Foundation.

Q: Mr. Keshe, why does he need so much energy?

K- He doesn't need energy. This guy has a different agenda. (He has to own things. Because the first thing he took, he stole. So he thinks he can steal everything? He stole the technology of Microsoft from the Apple boys, and got away with it. So, he's become a thief by nature, because he can buy anything. He has the money, he can do. He financed one of the mass murder guys to become the head of World Health Organization. Anybody who says he is for ethics, doesn't put such a man (in such a position, through

backing and finance, unless he has evil intentions. And we saw what he did with humanity during the past two years. God help mankind, with what we see in this picture.)

Q: Can we change this condition, if we collectively join our thoughts together as one?

K- This is why we are setting up this "World Leaders Session." People have to learn how to do it. (If they can feel it, then they can bring the change with it. It has to be done by being part of, being inside it, testing it, tasting it, and seeing the changes that come.)

(Some years ago we asked you to deliver the peace message to the world leaders, and a lot of you went to the presidential palaces, and did a lot of other things.) Now they'll come to you, by your collective decision as Knowledge Seekers. You'll deliver the same thing, but instead of a piece of paper, or email, you'll go directly to the soul. I promise you, it will work 100% better than all your emails, and letters you gave to the office of the presidents, kings, and the prime ministers of your countries.

Q: What you've just said, is so powerful, Mr. Keshe.

K- It is the reality. You have to do it.

When all of mankind will be equal in the dimension of the Soul, then the STP decides how this equal position will be achieved, (so that the physicality is comfortable with it).

(The ex-Shah of Iran had the habit of often dressing as a common man and going to the shops, bazaar, and everywhere, without anybody knowing him, to see how his people lived, and how they reacted to him. Very few world leaders have done this.)

When we call for the end of kingship, some people say, "oh, he is "anti-Belgian." No, it's not because of that. It's because we're all kings. As Souls, we are equal and understand the same things equally on the Soul level. Differences exist in the physicality, someone can be handicapped or whatever.

A true leader lives amongst his people, and not separate from them. We have not had many of them in the life of the Man. You don't lead from the front, you lead amongst and from within. I always stay a Knowledge Seekers, because you learn from where you stand. That's how man will come to be. Understanding the knowledge of the Creation will overtake all man's greed for physicality, any greed will be gone.

The bottles of Gans's on the table in front of the sofa, where the people who sit for interviews after coming out of the Flight system, are not set in any special formation.

(This knowledge is a revolution in science and technology. Even though it has been restricted by certain governments we have developed an "underground scientific structure." When we show the first transmutation and everything else, it will blow out this structure into total different directions and dimensions. The implication of this technology, as it is coming out will be so strong that no government can hold it back. The

knowledge is growing openly, but kept under the surveillance of not being in public, but it's still growing.)

Just look at the number of people coming from all over the world to Linz, and the cultures they bring with them. We have touched every nationality and race on this planet. (Our Knowledge Seekers are developing and bringing out the T by producing different materials, and all sorts of other things with it.)

Mr. Keshe was asked if he were to enter politics, what would he do to get peace right now.

Politics is not our job. I've been pushed in the past a few months to enter politics in Iran. Because of the mayhem, people are looking for somebody to make a change. That's not our job. I am not a politician. I'm a Knowledge Seeker and I bring change through the knowledge to those who are seeking for, and appreciate it. They can use it to expand the peace and unification of mankind.

This is not the first time I've been asked to enter Iranian politic. They are backing me with billions of dollars. I always said, the man who enters the politic has ended his life. Because in the world of politics you are only good, as long as they get what they want from you, and then they throw you out like a dust. So, the world of politics has no meaning. But with science and technology we create the politics.

I had many friends in the British Parliament, and the House of Lords and in the British hierarchy, as I lived there for 30 years. I always used to tell the politicians, and they used to laugh. I remember going to a meeting of the House of Common's with a couple of Lords. We were at the dinner table in one of those Gentleman Clubs, as they call it. I always told them, that you are politicians only because of us businessmen. We find you, tell you what we want, and we support you, but when you go into Parliament you're our servants. As scientists and men of influence, we decide the politics of the nations. But this time we as Knowledge Seekers will decide the politics of this planet scientifically, which is more powerful than actually going in there and sitting in the parliament and just shouting, and nobody hears you.

A ticket collector who used to work in the Underground of London, inherited some money from her father's village in Ghana, and became a member of the Parliament. She called me when I was in Ghana, and said, "Mr. Keshe, can you tell me what I have to do as a member of parliament? Where can I make the maximum money. I might only be there just for one session. Can you show me where I can steal and get as much as possible?" There was also a security man in London, who was made president of his country.

One of our Knowledge Seekers told me that everything we suggested to the officials in Iran, they see it happening. They're changing things as you advised. But in the background, we advise the other sides of the government as well. I don't see what is happening in Iran the correct way. But you've got to understand, if they don't do what

they are doing now to the population, they won't be in power. The Iranian leadership is fighting for their life. It's not the riots on the street, that they're trying to stop. If those on the street take over, they won't have a life. This is exactly how they came into power, by overtaking the Shah. Now it's happening to them. The way they came in, is the way they'll go out. To survive they have to kill as many as possible. They are not killing to suppress an uprising, but to survive.

My technology will last for the life of humanity and beyond in the space. This is the true politics, when you can bring true peace. Let them battle for the spoons and forks. The plate, the food on it is with us, among us Knowledge Seekers.

Q: There are millions of Knowledge Seekers in the world who cannot afford to go to Linz and assist with the changes that Mr. Keshe suggests. So...

K- My Soul can accommodate millions. So, no problem.

The whole structure is set in a specific way, one day I'll explain. Soon we will explain it. The structural changes that Keshe Foundation will bring need to be done step by step.

There is a principle, I always lived by it, and it's part of my life. When you give something free to someone, they have no value for it. When you pay for it, you respect it, and you'll stick to it. When it becomes part of your life, you'll know how to handle it the correct way. This is why we have put it this way.

(Some people come in and say it's their right as a KS to be there. We've seen many of them, and the mayhem they have created. They value their own work, only for what it brings to them.)

It's not that they cannot afford it, or it's too expensive. What you pay for, you respect, and what is given, it's just another, what I call, piece of toilet roll. People don't have respect for what they don't pay for, it's the human nature. In the future this will change. It will come by service, and not by paying. But that's a different thing.

Q: I would like to understand more about the opening of the cells. Could you speak in more detail about this process. What happens when this opening of cells takes place? What is required for this to happen with the cells? Does it require a special emotion for this to happen?

K- Yes, it does. Human race can create this emotion of separation of the cells, as they do with the amalgamation of their cells. When you amalgamate them, you create cancer in yourself. (We just heard in the transmutation test today, our friend said he felt the expansion of his cells. This expansion, is the start of the separation of the cells for transmutation.)

Man, within the structure of his DNA and RNA can create chemicals and control their use through his emotions. Early Man as a mammal, used to do it. Millions of years ago, if

you had a tail that got trapped under a stone you didn't die, you created a condition that released the tail, and you made another one. The way some reptiles do. It's not the exclusivity of reptiles. (It sounds like he is saying that the chemicals in a way, act like a knife, only from inside, you will your cells to separate from each other. Not by the outer force of a blade.)

(You create dilution of the cells, which are really just M fields. The cells are M fields. It's the same when you put your hand out and create gold or even light in your hands. Through the same emotion, you create separation or expansion of the cells.)

You have to learn how to do this to be able to go through transmutation.

(When your Soul is transferred it cannot be altered. Transferring the STP, is transferring an energy of you. When you are transferred in the physical dimension, the STM and the STP interact with the environment, and that dictates how the state of the fields of the energy will reset themselves to form the new matter state, or life.)

This is how you suddenly appear with for example, 4 arms instead of 2 on the Moon, or in another position. It's still the same cell combination and the same energy, but conditions of the environment is different. It's a natural process we have in our RNA and DNA. We just control it through the technology.

Up to today it was only a theory, but now it's a technology, because it can be replicated, and we can make machines to do it.

(In the flight units if we change the environment on the right side, we can take you out as a fish. But the problem is, I have to find a water tank for you. But your problem is, it is your wish to become a fish?)

We'll test this in the coming time. The current machines have a lot of limitations. The new machines will allow us to do this. Once the two new units, and the other two vertical units come in, we'll have a huge versatility, in moving and creating condition of the destination.

We can create the conditions of China, and send you from London to China, and you'll come out as a Chinese. You'll understand the culture and speak the language, and understand everything.

What is interesting, is the lady who says she cannot see herself in the mirror, but that she sees a light in the back of her head all the time. She said, she could see the light in the machine.

If the world leaders know that they cannot hide anymore, because their souls lead them to justice, none of them will do wrong. None of them will take up the banner of leadership. Because they're scared of what their souls might bring to them, or maybe what their souls brings them to. Bahauallah wrote, the time will come that no one will take up the crown of

the kingship, as all man will be equal. Now through the technology and understanding the power of the source, we understand the beauty of his message. Because now we understand that as souls, we are all equal.

When a leader says to his soldiers, or to those who execute his power, literally, "plow the man in the streets and throw them away like a dust." This is the time when there is no kingship. This is the time when you have lost. This was the message of Ayatollah Khamenei of Iran in past couple of weeks to the army. How can you be proud to throw away your own citizens. You must be very desperate to get in this position. You don't need to get into politics to change things. Things will change themselves, by the leaders own lack of understanding of what's going to happen to their soul.

Q: Has the T of the Material Enhancement Unit been brought forward to be used? Is it available?

K- Of course. (The Plasma Gas Unit that we showed, where we convert energy to gas, it's the same technology, only it's a mini version.)

Q: Will it be available soon?

K- (It's just matter of .. there are some technical problems. We need a little more time to do it. We can produce any kind of gases. It's a conversion of the fields into matter state. Because it's a Gans, the matter state has to decide how, through the STM it's going to be used. It's very, very interesting. You haven't understood what this Gas unit is yet. The system has a soul. The implication of it will be very huge.

But things are not happening the way it should happen. The way I look at it, it's not yet the time for it. (It's like with the organization, that we invested everything into, to bring the T out. It's just not happening yet.)

I sat back and I looked at it yesterday, and I said, why the heck not? Then I thought about what this Gas unit will do. Then we all heard about the explosions in pipeline number one coming to Germany from Russia. The implication of that pipeline is, "it the last chord that cuts off the astronaut from the space station." People have not realized what this means. If we look at it from the KF point of view, with the technology, it would end kingship through fuel and energy. It pushes new technologies like ours to come out into public.

I'm waiting for one tipping point. When that tipping point comes. The phone call I took earlier was part of that tipping point. When that tipping point comes, I will change the running of the nations in Europe with the flick of a finger. And you KS in Germany, France, and Italy, will be spearheading it. You'll be spearheading this beyond your imagination.

Now if this would have happened six months ago, it would have had no influence. Even two weeks ago, it still wouldn't had influence. We are getting closer to that tipping point, for the technology to bring the change. It was a stupid thing to blow up that pipeline, but whoever did it, it's part of the overall soul of the change to come. It might sound stupid to you. But it has so much truth in it. Was it the Americans? If you ask the Germans, they'll

say it was the Russians. But nobody will be benefit by this act, more than the Americans. Now the Western Europe has to rely totally on the US for all their fuel, gas, food, and whatever. It's how it was during the Second World War. All this transfers to British Petroleum, who will control everything.

In 2 weeks I'll explain this, because we are waiting for that tipping point. I'm sure the people of Western Europe will thank you KS for all the knowledge you carry. We are just waiting for that change. If it happens in about 30 to 60 days.

Q: Many soul are experiencing discomfort because of the conditions being created. They would ask the question, if the technology is here now, why would it not be just brought out now?

K- You did not respect us when we gave you the MaGravs. You did not respect us when we gave the other things. A bunch of abusers. So now, we choose the time. If you're not hungry, and I put the most beautiful dish in front of you, you are not interested. But when you feel the hunger, even an old piece meat will be delicious. The West has to go through this, it's part of the change. None of the things you see happening is just coincidental.

Q: So, the West has to go through this to pay back the balance, is this what you're saying?

K- No, not the West, the whole world is paying for this. The only place you can get free gas is in Iran, as I call it. But the whole of the humanity is going through this change. The guy in the jungles of Africa doesn't care how much the price of tomatoes are going up in Europe. It matters only to the Western world, and the Western world is keyed up to bring this change.

One of our Knowledge Seekers from Australia called me a "globalist." No, we are a "play-ist," we know when to play, so that it is fair for everyone. We have learned from you. I told many times, it's not time for it. (At the right time, the thing is going to happen).

It was supposed to happen yesterday at 3 o'clock, but it didn't happen. Today, again we're waiting for it to happen. It's not the right time for it. Because when it comes, it will be a "switch time." I know, we're preparing everything for it to be that "switch time." It will not happen one day earlier, nor one day later. When the rest of this structure is set up, for the souls to come here to do it. Then we'll bring it. You will give the knowledge (to the others, which we gave you for it to happen). What have all of you done with the MaGravs we gave you? Nothing but to harm us. So, this time, we make sure you don't harm yourselves.

Q: Why do you think the Pope is suddenly demanding, that all the Catholic communities from around the world, send all their money back to Rome?

K- Has the Pope been to the casino last night, and lost everything? Did the casino "call the slip in," as they say? I haven't heard about this, I don't know.

These people in the name of religion do a lot of other things. We have a good connection in Vatican, so we hear a lot of things we're not supposed to. (Maybe they know the end is coming and they want to collect the money so they'll have something.)

(There are pictures that show the wealth of Vatican. They pile up all the jewelry and gold coin into heaps, like they do with coal, and they just scoop it up and start counting it.)

Every time you see the Pope going somewhere, they always take cargo jets with them to carry the gold back to Vatican. Especially when he goes to Brazil and also the far east like Thailand. Maybe the Pope has lost a little bit too much last night in the casino.

There is another side to Vatican. It is, first of all, Vatican doesn't hold much gold reserves, because they transferred it all to Berlin some years ago. Whenever the Catholic syndicate, or the EU, has problems the Vatican backs it up, to see that the European Christian community doesn't change. We saw that with Ireland, Portugal, and Greece some years ago. There was a financial crisis, and then suddenly, without word it was solved. But then the gold got transferred to the Rothschild's in Berlin. People in Asia cannot comprehend this.

In the far-right situation in Italy they start to target blame on the immigrant population. The Vatican encourages these harsh times, and siphons money to the locals in different ways, that allows them to become racist towards the others. This is 100% on the cards. We saw it in the elections in Italy, and in the past two or three elections around Europe. There is a lot of racism in UK.

Artists who use the T and Gans's in their work can approach the KF to promote their work.

KEY-PHRASES:

SUMMARY:

ENGLISH TRANSCRIPTION

(:08).

K- Yes, good morning. Good day to you. Wherever you listen to this series of Knowledge Seekers, to Keshe Foundation, Spaceship Institute, knowledge sharing. We welcome you back. Coming back briefly in understanding of what is to come. (:10). We saw the first steps into it transmutation of the energies, or what you call Soul, or energies within the ?? man's physical body. How we have managed to expand it.

As I said last week, we saw a couple of going through it. And this week we had another couple, a father and daughter, and it brought a lot of confirmation to how close we have become to the final destiny, or destination of full transmutation.

As I said, we need you to come in that we perfect our systems, to bring what we call finality and eventuality to it. Every time some of you come in, we learn, we test different ways, we understand more. This week, we had a literally two days off, on testing on transmutation, different combination, couples, friends, strangers, in a group of small and big, with strangers present, which have nothing to do with the transmutation, to see if we can operate in those kinds of systems. We are testing everything, which is, could be a point of learning, or point of what we call, avoiding, not to do.

This week, we're going to look at first, to the recording of the first couple last week, where they explain what they went through. This recording was made two times. You're now listening to the second time of it, when it was done hours after. (:12). Where the first session has a lot of noise and voice problems. But we have both. We decided we will play the second session and just listen to it. This is the time, the emotion of coming out of the system has gone. It's more logical and I explained some of it to you last week.

Then we listen to the one of the recordings, one of the what we call, processes of this week. We learned a lot this week. And by the look of it, we are not very far from full transmutation. Yesterday's tests with our friends from Holland, the father and daughter, brought a massive step forward.

You got to, as I explained before, realize, we have many controls over different aspects of the transmutation. We allow transmutation of the soul, we can allow the transmutation of the Soul of the Physicality (STP). We can allow the transmutation of the physical dimension (D), but with the dimension of the Soul, and not the physical dimension.

We've done that this week. One more or less, switch away from full transmutation. But it's too soon. We have not done, as I said to our Knowledge Seekers (KS), we want to have the whole body across, not pieces of it. And this will come and this bring a lot of knowledge to us.

Some of you might not understand the gravity of these two tapes. But if you're involved and you set systems up the way we do, you understand it's a massive change. (:14). To you it's just a voice. To us it's 40 years of research and development. When somebody speaks that, "I felt," or I hold, or "I held," you can't do it in the normal way. Scientists for centuries have tried this. Now theory has become a technology and it needs to be fine tuned.

We had yesterday 2 Australians, and for first time most probably, at the Uno center (Linz), we put them in the system. And strange enough, one could pass an orange to the other side. For the first time the other side could feel, he has received it, he could touch it. He could feel, he thought it was a lemon, or an orange, but he decided it's going to be a lemon. The other guy has actually sent him an orange. Nobody told him to do anything. It

was the decision of one, on his own, in one machine, sending with thoughts through the Soul, an object. And the other side, in the other machine has actually had a feeling of. But as he said to us, they're going record it. They're going to come back next week, they'll record it, maybe we can share it with you next week. That he felt, he received an orange, and he was too busy, with too many things in his head, and he was trying to put, to do too many things in the machine.

So, we have gone one step of transmuting matter state in the dimension of the Soul, which is another breakthrough. Which means now we can send your suitcase with you too, when we send you up to Moon. (:16). You will not turn up naked, but I don't know if anything in that suitcase will be any use to you. Because you've transmuted, you need two extra arm holes, and four extra arm legs, and legs and arms together, and different height and shape.

So my advice to you travelers of the future, to spaces, just don't pack anything. Because there are no tables, just ?? meet. And most probably part of your suit, or your clothes you took, or the toy you took, in the environment of the new plasma will take a different shape, or would not materialize. Because in that environment, such material cannot be manifested.

So we are entering another breakthrough, we are entering in the process of explaining, delivering, and showing to you what is to come. What is going to be. The couple you see on the sofa, as, if you remember last week's. They have been together for 40 odd years. married for 39 years, the gentleman has had a heart condition before, recently. And don't forget, that we will follow them the next few weeks and months to see what happened to them, in actually, the ?? totality of their experience.

But listen to this very carefully. This is something like they went in early sessions. And this is actually happened, the sessions ?? finish by 6 o'clock in the afternoon. They had time to sit, to think. The emotions have changed. The original one we still have, we can show it today. We try to transcribe it, and then translate it. Mario does most of the translation as it is. (:18). and some versions of transcribing, and translations for those of you who might have a problem with it, it's done in pieces by the German community with the help of our team in Romania.

You will see it, hear it. Look at the emotions. The transmutation has touched the Soul, has touched the physicality (P), which creates the emotion. Even hours after going through. When I spoke with them when they came out, the feeling and the emotion, and explanation of how the female partner explained, she could feel the vibration on the left side of the heart, or the right heart side, and it's very precise. It's a German precise language with it.

We'll listen to it, if we can play it, and then we come back, and then we go listen to the other one. Which we give an option to our KS if they want to go on camera, or they can go on voice, and I think this is one of the very first voice recordings we have on an MP3,

for the father and daughter, beautiful couple from the what we call, "the land of birth of Keshe Foundation in Holland." Would you like to play it? Then we'll listen to other one.

Plays Video of testimonial of flight >>>
(transcription of recording)

Dean : I think humanity has just experienced something wonderful. Thank you both

Thank you. Thank you very much for your recording of this explanation of your experience in the flight Enhancement Unit. If you'd like to share with us in your language, how you've experienced today in your own words and understandings. Thank you. (:20).

Translation >>>

(:20).

(:22).

(:24).

Dean: Thank you. You can see there was a lot of emotion there. Mario would you explain to me just an overview so that I can ask a couple of questions.

Mario: Yeah. The special thing that happened here, is that Mr. Keshe made an experiment with them, without them knowing. (:26). And they're the first people doing this kind of transmutation experience. And what Mr. Keshe did is that, he wanted him to be able to send her emotions, and not just emotions, Mr. Keshe explained that the soul was opened, but then also the soul of the body, so that she can feel it physically. And that's exactly what she described, that she felt the warmth and the feeling in the heart of the left side of the heart.

This is the first time this kind of transmutation happened. The last part of physicality itself, the body itself, this was still stopped, the system wasn't programmed to do that. So it wasn't to teleport the body basically, but only to first the Soul. And then also the STP.

And yeah, that's, that's what Mr. Keshe did with them, and put the wire in the hand, and connected them. The interesting thing about this, is that this was a one way trip. So the system wasn't set up for her to send something. This is what she explained, she tried to reach him, but she couldn't. But he could reach her. The system is built for going from one to the other unit, and not the other way around. And that's why she couldn't reach him, but he could reach her. This is exactly what happened.

Dean: Thank you, Mario. Thank you for explaining that to me. So I can see there were lots of emotions. And this connection as you say was one way. So how did you send your information's through this energy flow

Answer: .. (:28). He said that in this situation where he was feeling really good. It was a hard task to decide what to send her. Then he thought that words are not enough. That's why he thought about sending her love and light.

Dean: Okay, so how long have you known each other before you went into the to space experience?

Answer: Approximately 45 years, and they are married for 39 years.

Dean: Very beautiful. And that deep connection, that soul connection that you had from when you first met to this moment now? Does it feel like this experience, in this moment, do you feel more connected? Is there any difference?

Answer: They will try to use the same technique without the system from home. Now that they know how it works, and then to do it without it. They still, they are connected to the system.

Dean: So yeah, you're always connected. Thank you for that. That's a wonderful explanation of what is actually taking place in there. Are you planning to come back, or is this a one time trip?

Answer: (:30). They are planning to come back. Because of the fast development of the systems here. That's something that they want to do again together. (he said he would not do it alone.)

<< Audio is broken >>

Dean ... on another planet? What environment were you in? Were you aware

Answer: He cannot say where he was. He describes it as he was, in the somewhere. It wasn't so specific, like he didn't see any stars or something like that. But he was feeling really well.

Dean: So physically. (:32). You were you were on the physical side. And you were sending to the soul of your beautiful wife. So did you feel it physically and your wife felt it on a tangible soul level?

Answer: More on the Soul level than the thoughts level.

D: For both of you? It was on the Soul level?

A: Yes.

The wife said it was physical.

D: You felt physically in the body?

W: yes. (that's a good point ??)

Dean : Wonderful. I think that's all the questions for now, because we had a slight problem with microphones. So thank you very much both of you for being present and explaining that as beautiful testimony and thank you so much for being present in this moment. Beautiful. Thank you, Mario, thank you.

<End of video >

K- Thank you very much, Rick. This is what will come to us. That was that , as the lady said, "I felt it physically." We timed this ...

Timeless is not random. We control when the Soul transmutation comes, we inform them. We try to keep very quiet, don't do anything in this session with them. (:34). And that everything is through the Soul level.

Opposite to this, which was done last week. This week in some trials, we allowed the soul transmutation. Then we allowed the people in 2 systems to talk to each other. "I'm sending you an orange." We want to know if the other side feels the orange, tastes the orange. I send you a cake. If you see the cake, if you eat the cake.

So the time, if you remember when we started, you couldn't take anything in. You had to go with everything off. And then we developed. Now the only thing you ?? (can't take with you) is what we call, electronics. I'm sure soon that will be overcome

Now we allow people to talk to each other. It's like on the phone, I'm sending you by post, cake, for a gift for your birthday. Now, do you see that. As I said, the gentleman sent him an orange. He feels the orange. We can keep the body in one system, but send the gift to be approached and collected on the other side. Instantaneous posting.

We tested this yesterday, deliberately in 2 - 3 systems, with 2 - 3 different groups this week, and it works. We'll hear one of the Knowledge Seekers talking about it next week. (:36). And you'll hear in a second MP3 recording of today of the father and daughter. They see the images of what the other side sent. Feel the emotion physically in popping ears.

Then it comes to the point, how do we translate these emotions? You've got to remember you stand to give a lecture with a thousand people in the room. And if you understand this way of working, the 1,000 people are looking at you, thanking you, shouting at you their head, "load of rubbish," "what a beautiful knowledge," and it's all coming to you. Up to now you have a silence, physical body, in front of you. The thoughts was in their head, "what a beautiful dress," "who - she should comb her hair," "oh, look, the lipstick has gone a little bit far," "oh, look at that one, the guy's tie is crooked." They think about it. But now with this opening of understanding of connecting with the soul. I wonder if they realize, you listen to their soul. And out of nowhere, you put the tie right. Then you clean the lipstick. And "oh my hair. I was looking it, it looks wrong somewhere."

Or do we become selective and we target where we look at? "Oh I like to take her out for dinner." "Oh, I like to go out for a dinner." When you walk out, you both go for a dinner. This is the reality, which is now, is in our hands. It's not theory. It's a technology. And it's not for you to ?? free to dream. But you plan where you want to go, (:38). when the physical body rests. Where you send the soul to work, till the physical side gets up.

I have this communication with one of our Knowledge Seekers, one of our Knowledge Seekers has, and is deciding this, and she does that very well, apparently. We're getting to know more and more. She decides I'm going to bed, who I'm going to have a meeting with, I need to talk. And she gets it right every night, or most of the time.

Now, because they've been through the system, the soul has developed to understand, it's out, out of the shape of the physicality. Yesterday with one of our Knowledge Seekers again, old Knowledge Seekers, a couple came, and we could clearly discuss how he saw his soul. We spoke about the light, today, or last week. We spoke about people feeling in a bubble. This gentleman he is an old Knowledge Seekers, the couple, and they have according to them, enough MaGrav systems, and enough things, they know everything about, and how they work ?? It was so beautiful to listen to this couple. It was amazing how Knowledge Seekers develop their own ways.

And he could tell us. that he could see a "foggy thing" in front of him, when the Soul expanded. So interaction of the field of the Soul. He could explain to us exactly how the fogginess was. If you remember, you go back on other teachings. We had Knowledge Seekers who taught, we tell them. We told you, we talked to them, but they don't see us. And now we see, explained by an old hand in the teachings, that he can explain to us, how exactly it happened to him. He cannot see his fingers. And strange enough the wife cannot see herself in the mirror. (:40). When she puts a mirror in front of her, when the Soul expands. So we have Knowledge Seekers who are testing, and when they come into the system, and they can confirm. That's the expansion of the Soul, and how and what they see.

Interesting enough, we have received a request from one of the Knowledge Seekers who are, our volunteers, the first couple of going to Moon, that they would like, after 30 years, or whatever marriage, having a child. They would like to have a child of the Soul to be created. It's on the cards. We're looking at it, the possibility of creating the first child on the Moon, through the interaction of the soul. It's not out of hand, it's not out of reach. They are our first couple, we would have the first child of the Moon. We'll have a look at it. Possibilities, feasibility's, and the consequences of touching it down the line with a child we ?? Extension of the life to 200 years, that we just don't bring a life for a short time.

This is now a reality of science and technology. This is what we have on our hand. We have managed step by step as a space organization, and you as members of this space organization, to develop together a new technology. Where the man does not need another man to take him somewhere. Man takes himself around in his full dimension through the soul, and when he gets there, he puts a soul in, and takes him around in a ?? variable condition, if he likes to.

The beauty of this is that in the coming time, (:42). when we reach this time of transmutation, we allow you to do it walking within the space room. What does this mean? In the trials, until we go for a full transmutation. We tried it yesterday with three people this week. We allow five or six of you in the room. And we allow you to talk to each other through your soul, to create that environment in the dome. We want to see, what did you hear from that soul. What was that soul. Some souls gets instruction to do something with the transmutation of the soul, and see how the others perceive it, what they receive, and how would they react to it. Or I just want to send to that person and the other 4 are not privy to it. This is what it's coming to.

We go for a full transmutation, we understand everything that, we adjust our systems. We set our systems. Our team are relentlessly. Every week when you come in from, we finish on Wednesday till next Tuesday, do all sorts of things, hammering things in and putting new bits in, new controls out, new switches. It gets literally, it's a technology in development, while you are the volunteers.

And it's beautiful, especially this weekend, last week, the ones who come, they say, we come here to add to the knowledge. But if you get something with it, it's nice. But we want to be part of it, that you learn, and you can develop, the others can benefit by it. This is the truly what we see most of the Knowledge Seekers. We are here to serve. (:44). And it's a lot of benefit, some of these people travel for hours, for days. The couple of yesterday, the father and daughter, they couldn't take a flight from Holland to Austria, but the problem in the airport can be, and they could not be certain that they will get the flight, they'll be here for the time. They drove for 10 hours one way. And the father says, I just came here to add to the flight, to participate, that we are there.

But this is the ways, and they have been, made the nation of Dutch. They always have been pioneers. And we see this, that it's coming down, and how it comes down. We transmuted the love of her husband, and the light of the husband in the physical dimension of the heart and emotion in the wife, physically. Where we allowed the transmutation of the soul, and we allowed the transmutation of the STP. When he arrives it imprints. It's like physically kissing on the lips, and the way lady goes party. The love is there, and the touch is there, and this is what we see in this emotion.

The interesting thing is, an amazing part if you understand what's coming up in the MP3 (audio), between the father and daughter, listen before the team starts. They did not know that the microphone was on, and you hear the father. People go through life changing emotions. In a way, the sincerity, and causes, and how they perceive, (:46). and how they arrive. And what is the next thing.

For the first time you hear the gentleman who speaks on a microphone behind, that he feels that his body is opening up, every cell is expanding physically, which means we just went to pre-transmutation, and that's where we wanted it to stop. We did not switch to full transmutation. So we have shown for the first time, when we speak to people who've gone through it, they feel that separation of the cell. They feel that separation, lightness and openness, ready for making the cells, as being a solid two energies, that they can be transmuted. This gentleman clearly states, and I know exactly when I switched the machine on, and I know how he feels it. The most interesting things is that, we dictate, control that time.

If you come into the flight room, you'll see I have a lot of switches and buttons available to me. I can decide if I send the plasma inside. If I send a matter. I can decide in every level how, and the way I want to send it.

Rick if you can play the MP3 (audio) into you, and them. You will, seen the other tapes and just play behind it Yes.

R: Yes Just so people. (:48). just play the voice. ... Yeah .. the image won't be changing....

K- ... we give people the option if they want to be on camera or voice recording. Some people don't want to do either and they just write .. their own experience.

R: And you might want to interrupt and comment at some point Mr. Keshe because it is like 17 minutes long all together.

K- Let's listen to it and we'll see. I come at the end. If people notice we have a lot of problems with the microphones. All of them work, but somehow we don't know how, or people don't know how to control in the back room, that all (the microphones) record. It's especially in this one, one is recording, and if you're a distance from it. But they think all the three records. So our team is going through learning how to use the microphone. So you saw it in the other one. We have all the facilities. The best in the world has been bought. It's just that we need to learn how to use them for our recording site. Go ahead please.

<< Plays Audio with frozen image on video about 17 minutes long audio is low >>

(The father says, "I am shaky." ..)

Dean: Okay, you've just had your flight experience together. It's like the immediate the flight experience. (:50). Which, if you can introduce yourselves, and then you can give us your explanation of what you've just experienced. and gone through collectively, individually within your environment.

(Skip editing ...)

Martin : Okay, I'm Martin, from Holland. And I'm the father of Tisha, my daughter. Mr. Kesh said to us in which system you want to go into. And you looked at her and she said, I want in the right one. So I went in the left one. So I was the captain. And she was the passenger. She sat in the front of the right home, I sat in the front of the laptop. And there we sat for a while. I was feeling a little anxious. Excited. Excited is a better word. When I came here, she was a little bit more anxious, anxious than then excited. Both maybe my feeling of excitement faded. Just by being here in the center. To become me, I became more relaxed. And then I went into the system. It faded completely. Within, I don't know, 10 minutes. I was not aware of time, so I don't know. What's your feeling?

Yeah, I'm Tessa. I'm the daughter of Marfan. I felt anxious at first, like high in my reading. And when I was in euros, like feeling the same thing, that maybe more relaxed over time, but not immediately, not within 10 minutes, but like, more at the ends. And yeah, so I was in the passenger's seat. And I was feeling or sensing some sort of things. Like my my dad told me to send me some things as a follow up, or he sent me my mother and family because we went to Bali together. And I was feeling those things as well. But I didn't know we send me those because you didn't scold me, but like, when we're talking

afterwards, he told me send me those things. And I really felt them as well. I also felt felt his hands on my left knee. So like the warmth of his hand.

Yes. Mr. Kesh asked me the cue. proposer asked her to go somewhere. I said, Well, I had some thoughts about going to the Moon going to Mars or Venus. Then also I thought, maybe we can go to Bali? Or to to be a mother, or even on the water. Where do you want to go? I asked her in my mind. These things she sensed as well.

When he told me about the water, like I heard Misako say things to me, but I didn't know what he said. When he told my my dad and he was out of the room. I felt my ears popping. Like I was I didn't know he told me to but I failed it.

So there were some things connections. That's she was not ready to go. So we went nowhere. And we just were staying here and overall, I felt very comfortable and peaceful and even light did not extremely I've heard many Testimonials, which were far more extreme with a did not have that. It was almost like it felt naturally. It felt quite normal. When I come out I felt more tingly links, especially my knees and my legs.

And a little bit more emotional. Not at first, but we're talking to Mr. Kesh. You feel more emotion coming out, or trying to come out. And I'm just trying to control it. Even now, when I'm speaking.

I'm sort of trying to keep control over it. But I feel a little bit wobbly. If you say this, but you're shining this light, right? A little bit wobbly? Yeah.

Dean Butler

That's a good explanation. So were you aware of each other in? Was this in level on a dimension level? Soul level? Were you physically aware of each other? interaction?

This was mere on a soul level. We were in Beaver testing. If you could send over things like a red red rose, or flour or, or an orange or an apple pie. And if we could taste it to each other, and it only worked from the, from the left. system to the right. But not the other way around? Because that's how they are connected. One way. So that was confirmed in a way. And I don't know what you would you experienced? Exactly.

When we when the one that was sitting in the captain's chair, so the loved one. They talk to each other afterwards. And we explain to each other what we felt. So when one was in the left one. Woman rights goods sense like the orange. So the one on the right or consent the origin could really fuel or sense it, see it or see it. That's when it wasn't the other way around. So devolves into the right one should send it to the last one, but it didn't work. So if you didn't receive

then she said in the left one, she sent me apple pie. And you both like apple pie because she makes it herself as well. That was very easy to sense because it's very easy to imagine. And afterwards, she sent me coffee. And I must say it was just a split of a second that I really tasted it but it was just a split of a second. It's not like now it's just like

Dean did you enjoy that?

Well, it's fairly short. It was really a millisecond maybe but it was like a taste of coffee. So just to clarify you both went either side systems experienced both sides. Yes.

But yes, yes.

Dean Was there one side you enjoyed more?

I enjoyed the captain side more. The chair was also a little bit comfortable.

Dean Butler 58:59

So the chair

is the chair in the in the right system is like because you bump your head against so you have to sit like this and the other one you can sit straight like a captain Okay, that's that's the physical explanation. That yes, it felt good in the captain's seat. Too to Yeah, it's like it felt like you're in control or something that's it that's it felt better to be in control.

I don't know if that's the right word but feels like yeah, this is my seat or this. This is okay.

Dean Butler 1:00:00

We were speaking about one soul level and it was still the words in the physicality so it's better to be in control don't know. I'm not like a control freak. I don't want to be like that kind of a person. But it felt more maybe comfortableness about the word and control it felt okay yeah, I don't like the word control actually that much. Although you need to control some things in physical life of course. Like yourself or anything. That's it this sort of this experience. Is this your first experience?

Yes, yes. It's my first time our first time here and let's

Okay, so your physical condition before you went in there was there any any conditions that you will find in difficult

only my emotion like I told you I was a little excited and unsure when I came out physically, I felt a little bit a little wobbly like I told you and a tingling sensation in my legs and especially my knees. That's that's and and after talking to Mr. Cash while talking to Mr. Cash, I felt more emotional. Which I wasn't really realizing up until that moment that now I'm ready. Now I'm realizing it very much. Even talking now I'm trying to stay under control of my emotions.

I want this thing to be about yourself. Not with not, that's an experience that I had yesterday, some paintings upstairs to the paintings were put either side I walked between them. And I felt this tingling sensation in my lower half of my body up to my needs. And then you go and say this now I'm starting to understand the soul interactions connection to every all the interactions more than more

that's nice. That's nice. You hear a lot and you experience a lot and I think just by being wonderful. Is there any other last comment you'd like to say to

counter let's take the experience of becoming satellite so that's all I want to say.

Thank you very much like to say just let it flow Thank you Thanks very much.

Thank you then thank you Mr. Keshe .

Yes, thank you Mr. Keshe? Came out

Mr. Keshe 1:04:20

You are the first person we have put to pre-transmutation physically. He is the first person who has gone through it. And when he speaks about tingling in the body and everything, it was one more switch and ?? (transmute physically) ??

We're expected to feel that interaction. It's a three phase ?? The last phase three ?? we put them in the last phase of the three parts. So, next flight we put ?? them in the second ?/ part But it's the first time when we hear that, tingling, is what we actually set you up to feel Your parts are literally, coming apart your pieces. .. emotion of movement

Martin: Yes, it's like feeling space is that the right work.

K- You feel the expansion of

M: You feel space, spacey. like space

K- that's what it is ?? ??

M: yes and I'm feeling it more and more. Like well talking about it well. Yes just let all things settle down, you feel this more.

K- This looseness.

M: This looseness, yeah

K- We had to loosen you ?? to

.. You are the first one we put through the first phase.

Since we have done the Soul. (1:06). We've done the STP ?? which you felt with the physical ?? It's just that last phase which everyone is waiting for.

We have to test it. We can't send you half ?? a body back .

M: That's why I came.

K- We don't want to leave the leg behind ...

M: People in Holland, were anxious if I could be still in one piece,

<< End of Video recording. >>

K- As we heard the, that we are on the final phases of bringing in a new way for man to transmute, for man to think, for man to communicate, for man to travel the depths of space. As I go to the ?? Dean this morning, these recordings are the pioneering folks. In the time to come they'll be the most valuable recordings, that the first time man ever could feel the opening of the cells before transmutation.

It will be analyzed in different ways, what could be done, or what has been done, or the way we saw with the couple. These recordings will become archive recordings of future science of the Keshe Foundation, how and where and what happened with so many things were touched but they were not explained, and the rest of it.

But at the moment we are concerned with how we are going to expand the borders of the knowledge of the man about himself. (1:08). In the next couple of weeks, as you've seen us in the past, we follow the same procedures. Because proven procedures for us is the basis of our work. You saw us bringing the Chairs 1, 2, 3 and then going to one unit. And then we started with the left unit, and then we opened the second unit. Now we went from the left unit to go only to the right unit. Next time we'll go from the right unit to the left unit, and we open the both. By the time we gathered this knowledge, 2 new systems are getting built, in 2 - 3 weeks, that is the universal system.

The Universal system of that we can choose the G and M fields, the environment of the destination, and then we can move the being to fit into that, what we call, environment. The new systems coming into operational are extremely advanced, but as usual, they are

not a final point, they're a stepping stone towards the next step to gathering the knowledge. But they are what we call, cornerstones of the future transmutation transportation. It's once they come into operation, once they get installed, we will see a different environment. Not only in the flight room, but at that point we will touch most of the Uno Exhibition Center (Linz).

The fields will go beyond the boundaries of the building. And we will see changes. We will see as you have seen with your Gans's, more birds flying, (1:10). more people coming to the center. We see people sitting on the fringes of the building, and finding what we call, peace.

In this process we'll be transmuted to the what we call, the Satellite Souls, which are registering ?? Then we start the process of world peace. Process of what we call, for mankind to be ready to take that final step to become the "man of peace." The beautiful part of this will be, that we're all involved in it, and we are all part of it.

Confirmation of the Transmutation of the STP

We're getting a lot of knowledge that is getting translated into technology, that, that technology will bring changes. That technology will bring the understanding of the Creation. In a very simple way in the recording, you must have heard, you must have felt, or you must have understood, a simple word, very touching, but is what we were waiting for. The daughter says, I could feel the touch of my father on my knee. Which means we received the confirmation of the transmutation of the STP.

In the other one we heard about the feeling in the heart and the left and the right side, and that part of the recording is there. (1:12). One day we'll play it when our technology changes and we can take a lot of noise out of it, and add to it. You will see that, we can even transfer the emotion of the physical soul. Touching of the father lovingly with the daughter. These are the breakthroughs that we are looking for. These are the confirmation of the systems, that we are looking for, that we can expand on. We play with a lot of gadgets, but we understand more how the system works.

In the coming time, your next lot next week, we have a beautiful combination next week. I'm really looking forward to it. Our fly flight system next week, there are people we had before when the system was in its initial stages. They're coming back. It's a beautiful combination of two partners, a pair of partners. We see the combination, because from each partner, there is a brother and a sister. So we have a brother and sister in system, with their partners. How we will transmute these people, 4 people from one to another. How we'll transmute the emotional of one partner with the other one, while it's with the other machine. These will bring us. This is going to be a five or six hours of absolute what I call, bliss. That we can bring the whole dimension to the place.

This couple, the both of them are so alive, so bubbly very young. You can learn a lot from them. This as a couple if you remember we talked about it, that one felt like a mermaid, (1:14). and trying to get the others to swim, and the other one. So we're getting

people who have experienced it. We are getting a lot of people will come in second or third time to see, to feel, and to develop further.

Then we'll see if we can try to bring an emotion amongst these siblings and their partners. The interesting part will be, what will come out of this room at the end of the transmutation, emotionally, physically, how as we saw in the first recording, the couple feel much different, and in the relationship, and in the whatever they have between each other. We want to see how this will interact between the partners and the present system.

If you're a family of four, father, mother and children come together, we want to see this, we have to learn it. We have to see, if we set without you knowing, one of you to do something, which the others don't want to do, then we want to see how the souls react. Will they pull together? Would they stay together? Or one of you disappears in the depths of space, you go to Mars, and the rest are already gone to the Moon. A lone child on the Mars.

How are we going to get you back? How are we going to bring the family back together? These are the things we have to learn before we go into the final phase. It is ?? bother, as I said to you a lot of talk, but to us evolution in the science and technology and what we see. (1:16). These are not actors and actresses. These are the people, this is you who come in to add to the knowledge.

We need many, many more, a lot people are switching just to be Satellite. I can't complete to become Satellite until I finish in Uno Center. We need a lot of you to come in. Come from all over the world and be there. Register and come in, that you go through the trials of what we call, transmutation.

Some of you come in with the idea of transmutation, "oh, I'll go from one ..(machine to the other). No, these are trials. These are there to. We get, we develop, and we complete, and we do it through the knowledge of the Keshe Foundation. Everything is as it is. As real as it comes. And it's you who speaks. It's you who records, and that's what is the important part for all of us, that we can add to the knowledge. We can bring that change. We can come to the point that, how it is going to be.

How fast is human race, we are going to bring this change about. Don't forget once we actually finish the final product, it will go into mass production. What would be the condition.

In the next few weeks, (1:18). I'll invite Knowledge Seekers while we are testing, through their wish, through their what we call, Soul, to bring into the Center the soul of one of the world leaders. This we can do. This is not simple, but it is possible. And see how we elevate, and what information we can transfer to the world leader. And then allow the soul of the world leader to return back to his physicality.

Collectively as all of us, we monitor the world leader, how he or she, words, action, within seven days, 14 days, changes. I volunteer, or I suggest, or I don't ?? want, know I

am going to bring in. We will see how consensus will bring one of the world leaders to Linz. Through the dimension of the Soul.

You wanted an orange to be transferred. The daughter wanted to give apple pie to the father. And the father wanted to give the love, and what care he has, and the daughter feels it as a touch of the knee.

What we be able to bring that touch and change the world leader. (1:20). This 100% possible. It's not probability. And let's see who and how we do it. And how the world leader will change. Options on the table are 4 or 5 people. One of the first people we want to bring change to the soul, that it speaks the truth, and closes many chapters, is the Pope.

This is where it's in the D of the Soul, and many of us can reach. Some Knowledge Seekers in the past have tried it. The other person in the world of power and diplomacy, which we would like to bring to Linz, to be, if he still be in power to come, is Putin. We have other candidate, in Charles the Third, of United Kingdom. To see if he will abdicate and brings an end to the Monarchy. As all men have to be equal. The only King which will stay forever of the race of the man, will be Christ. The 4th person, which I think will bring us a new dimension, (1:22). in bringing balance is the new Italian Prime Minister, Mrs. Meloni. Where far-right racism will come to be all races, which is in blood of the Man. We listen to all of your preferences. Maybe we can bring all 4 in, in the 4 seats of the flight unit, with you as the Knowledge Seekers in the center of the room.

We will announce what we call, "the elevation of the soul of the world leaders session," and we carry on this, for a week or two. You're welcome to come in. And you're welcome collectively to change the Soul of the World Leaders, one at a time. The reality will be, we'll see what we saw with the apple pie, and we saw with the love of the husband to be physically felt in the heart of the lover, the wife. We'll see how we go elevation of the Soul and knowledge.

One of the trials which we are setting up in the coming weeks is, we want people who don't speak one language, we have a lot of them coming in, especially German, "yes," "no" is the only thing they know, and bring an English speaking person, (1:24). I know Dean wants to volunteer, he is not going to get in. To elevate the Soul in a way of transmutation, and see if the German speaking become as fluent in English, as Dean.

You transferred orange. You transferred the emotion of the touch. You transferred the emotion of the apple pie. You transferred and transmuted the love into the physical dimension of the feeling emotion. That cannot be hard. Go to the transmutation and register and put out, "change of a world leader." Register. Then we bring 20 - 30 of you in, because we have to be a collective mass, to be able to import and deliver all our wishes. Otherwise, the world leader becomes only 1 or 2, which are in the room.

It'll be interesting to see how the soul of the Pope will interact with Charles, and how Mrs. Maroni interacts with Putin. And how in this World Leader's Conference in Linz, we'll get the outcome within a few days, weeks, within a policy, within their work.

Would Charles abdicate? And would Vatican see the last Pope. Would we see the far-right becomes center line. And we'll see one of the most aggressive world leaders understand the love of the humanity. (1:26). Then you'll understand why we even allowed the situation in Ukraine to expand and extend, to show how we can change it from inside.

It is not a trial to ?? offering the power. It's a trial to bring equality to all powers. But as you know, I always have delivered what I promised. We will book at least 20 of you to be in the room, that we get an international consensus to our 4 leaders, essence of Totality.

We'll open some of the Satellite lines of those who registered, and we bring in some of the Universal Council members through the same lines. Then we create a new world order, a new world condition, that is peaceful and the population the size and mindset of the world leaders. Because now it's not only Italians, the Germans have a say, as much as the Iranians, and the Arabs, the Black, the White, and the rest, in the running of the One Nation, and in a way, you become the councilors of peace. There's one problem with you who come in, is, there'll be no chair. You'll have to decide, (1:28). how you accommodate each other, in standing in the room to serve humanity.

In a way, we start to function as one family, one nation and the voice of every citizens, through the Satellites and through the Universal Council, and those who are present in the room, will bring that change. Register yourself and just put, "change of the leader," and our team will invite you, that appointed day to be. You'll meet the soul of the Pope and ask him, why does he allow the abuse of children. You meet Charles and ask him why he thinks he's higher than the others. Ask Maloni if the color of the skin is only a ?? thought ?? Then ask Mr. Putin are you really aggressive, ?? when is this going to stop, the human race is waiting to move on. This should have stopped in the 20th century. Putin ?? bends are the only thing he can think of. See how collectively you decide to bring the next world leaders.

In a way, the seat ?? ?? will treasure it, by their own soul. But you are there not to judge, but to elevate. (1:30). It'll be interesting to see how you Knowledge Seekers come in to change the world leaders. The next set of people I'll bring in, for the elevation of their soul is, Knowledge Seekers choice. Don't forget we need to bring a religious leader we need to bring maybe industrialists, and maybe the others who can be that change in society. In a way we rule through the STM to make everyone to be servant to the others, and not to be a king, and not to be a lion in the name of the Creator.

You've seen it in the past, we do in the past 3 or 4 months how gently I have brought the knowledge to be, and to be changed and to be accepted. And now it's time gradually to bring that change we came here for. Changing the world leaders to the people of the peace, and making One Nation out of this planet by its citizens, and not by those who think they can rule.

Come into Linz in the next few weeks, register yourself, and bring that change, which we all been waiting for. We need to change those who think they are our leaders, to think, to

understand they're equal to us, and they're here to serve, and ?? lead to them a lot of things. Vatican will bring an end to the what we call, domination of religions. King Charles the Third, will bring an end to kingships across this planet. (1:32). With Maroni, we'll end the racism, and with Putin, we'll end the wars.

Nobody can change it except you. You have to be in that room to bring that change. Be prepared that when you come in, you come with a full understanding, that the changes for the human race is on the shoulders of every one of us.

We try to do this by Christmas. I wonder if we do this, and we can change by elevation of the Soul of the Pope, would there be ?? a false Christmas. And we just celebrated to be in peace, to celebrate to be all as one race. We don't need no vacation, which is copied from one religion to another, to control the man, both through the soul and physicality.

I know what I'm doing, and I know where we're taking you, to bring that peace around, to bring that change around, to bring that position, that all men are equal irrespective of color, race, and position, and then the hardest thing for human race will be, that all creatures of Creator are equal irrespective of position in the U, and how they come as a soul or physicality. (1:34). Let's see where are we going to take you in the next few weeks and then let's see how many more of you are there to bring that change?

We go for a break and we come back and we answer any questions you have. Before we go break one of our Knowledge Seekers is not good health in hospital. We wish him all the best, and we wish him one of the fastest recoveries, that he will be out, and be amongst us again. He knows who he is, and I wish him all the best for his recovery. ...

<< **BREAK** >>> 452 KSW September 29, 2022 (1:41)

K- Yes, if you have any questions? (1:42).

Q: .. If a stone has a soul, can the STM and the stone together create a new soul? If that's the case, I wonder what people will think of marriage of the future, and cross species and so on.

K- Marriage in the future on the physical dimension between the races of the universe, not all of them impossible. Some of them will be impossible in the physical dimension. But in the dimension of the soul, it's possible.

Don't forget, if you go back, I'm sure you can find it on YouTube, their are people actually married to a stone or an object. They take them to bed, there are a quite large number of them. They live with them for years. Has the soul of the stone touched them? Or the balance between the two, has created that love and care. We do that in a controlled way, because we don't want to be called, a freak. We do it with our animals, dogs and cats. We do it, especially women, with items of jewelry, they put it on for life. They never take it off. It's not something there, every time they look at it, they admire what they have.

So, it's not an unknown fact, (1:44). it's not something, that what will happen. It's, would that condition create a new cycle of life? And would it be visible to us? Would it be tangible to us, that we can confirm it? Or it will come to the point that we get touched by the soul of the fields, and we are aware of the presence of soul, but we cannot give, what we call, physicality to it.

This is not something that it might happen, we see it. Go on the internet, it's very interesting how these people live with objects, like a partner. It is part of our life, it's not something unknown. It will be something which happened, what will create out of it, if it is decided, that's a different thing.

When I listen to the German, you hear him, most probably Monday (they are) to record, when he explains how he could feel, and especially if he can make a life, ?? if Dean ?? can do with the right recording of the voices and movies together, that how he felt the object. If he fine tunes it, most probably he can tell you exactly the taste of it, and how fresh it is.

Did he feel the touch, or did he feel the soul, of what was an object in the mind of the other gentleman on the other side? (1:46). You go to a fisherman, in a fisher shop, and you say, I want such a fish, can I taste it first? Would he be able to give you the soul of the fish, taste if you like? Then you see, if you really like take of the fish, and takes the pleasures of its soul, in touch, gives more pleasure than eating it.

Would we do window shopping of the souls? Or would we do the window shopping of lives? If you've been to Port of, in Portugal, to all the restaurants you go to, they have fish tanks in the walls, and you can choose a fish, what you want to eat. It's very common in China, we go to the fish market. You choose your fish, then you choose your restaurant, and they cook it for you, your chef in that restaurant. If you go to Sandia ??, in South China Sea, Sandia city there is such a supermarket of fish. Every fish in the Pacific Ocean, which can be captured, can be eaten, are in the fish tanks in the market. You choose your fish, and then next door to it they built tens of restaurants, and you say where you want the fish to be sent to, and the chef in that restaurant will cook it for you, because you chose your fish. Go to Sandia and see the beauty of China, and you understand this much more to this country than anything else.

But look at, would you walk around and pick up all these fishes to see their physicality in your plate, (1:48). the way another man chooses to prepare it for you to enjoy the

physicality? Or would you just walk and enjoy their souls? It will not be hard, when we see the souls, we need no fishing. Then we learn more about ourselves, then we learn more about how the next cycle of life on this planet will be.

Any other question?

Q: John Bliven, ... If you could draw five circles in a row (on a white board.) ... (1:50).

In the first circle, we're going to put Hydrogen Gans. So, if you could put an H in there. In the second circle, we're going to put Deuterium in a .. crystalline state. Next one we're going to put Tritium Gans. Next one, we're going to put the Gans of Uranium (235). And then in the last one, we're going to put the gas from the Methane gas from your (Plasma Gas Unit) system, it is not Gans, it will be the gas, the Methane gas from your unit. Okay, so in each of these, if...

K- What is the abbreviation for Methane. Anyway, I just put Methane there. CH₄ it is.

Q: So, once we are able to let the Soul out of the cage, and the Soul can connect to each one of these balls individually, (1:52), or these materials individually. Just like when you create another soul with two entities. If you put the Soul with the intention into, let's say the H, for starters, and we merge with the soul of the material inside the ball. And we put the emotion of love, with the intent to create a higher form of this H, for example, in the first one (ball). Then it's my feeling that we could create, oh, and we have to create the heartbeat to make it dynamic. Then we could create a plasma field which would be a light field within each one of these.

The question then becomes, if we were able to achieve that state, then what would each of these balls be able to provide us? (Mr. Keshe draws a circle around all balls and writes "new race.") For example, the first ball might create the ability to have energy field of this, like a Sun, where we could generate heat and energy from it. The second one, my feeling is that maybe you can create entire cities with it. (1:54). In the third one, you know, I'm thinking also you can create probably entire city, but with a dynamicism to it, in other words, rather than being static or become more. With the Uranium you know this one, I kind of...

K- wobble?

Q: Yeah, it's of a higher order. But, you know, I'm not sure what it is that you would create, if you had that fields of a dynamic plasma that's connected to your soul, that you're able to, I'll say, manipulate or interact with. Then the last one, I'm thinking that what comes out of that machine, is a different form of plasmatic energy fields, that maybe has a different characteristic to it, than the Gans's materials. So, could you talk to those, and tell me what you think?

K- I will talk to them. ..

Q: Am I on the right track?

K- You see, if you envisage the number of galaxies, and the stars, and the number of universes, (1:56). the possibility of a life in such a state is possible. But the point is, what condition, environmental, allows such a life. Then, what characteristics would this life will have?

It's in heavy pull. So this, what you described here, shows the life will be somewhere near the center of the galaxy. That heavy pull can hold on. This structure, what you've chosen, is a type of life. The 4 elements of amino acid. Central gravity (U-235) to hold on to, and enough to link (CH₄) into the universal energy field through Carbon, or Carbon 14.

So, this life is extremely heavy, from gravitational pull. (1:58). Location immediately is somewhere in the centers of the galaxies. We see these kind of heavy element centers more towards the center of the universe, even heavier than this. You have to have that pull of fields, that it can be holding on to your position within the center.

These kinds of lives are extremely intelligent. These type of combination allows in a way, life nearest to the energy fields of the Soul of the Creator. Uranium means, it's like a Hydrogen in, what we call, periodic table. It's not a heavy element, but that's how we can put it.

Combination of the fields makes life a different way. Such a heaviness of fields, if you're in center and outer boundaries of the galaxy, creates you to be aggressive. Take, because you have a heavier gravity, it's like a cancer. You do for the metal, which can pull the amino acid. When you look at the cancers, you can, that's why in Keshe Foundation we don't look at the blood tests, we look at the elements. (2:00).

This life is extremely intelligent. Doesn't matter how, or where it takes shape. That comes from stability of, what we call, Deuterium. But agility of the Tritium. So, you have intelligent, active, and if you live in this kind of environment as a new race, as I have put down. On this Planet we would call them super, super, super intelligent people, active. Because the information on the sub-elements brought in, through their interactions, is a vast pull of information.

Most probably human race will have no level of understanding of this life, because it's far beyond his imagination in the physical dimension, but his soul ???. Creatures created in this condition should be very flat ??? by this. They are set to absorb a huge amount of radiation from cosmos. That comes from the broad spectrum of the division and the number of the neutrons within the Uranium - 235. (2:02). To sustain it you need to absorb a lot, to keep the energy fields of the (U) - 235 in position, in, what we call, where it should be.

I can imagine how a creature will live, where it could live, and what we need to handle through his soul. Receives the more powerful energies from the center, and it pulls more powerful energies from outside. Put it this way, human race would be a speck of dust in this environment, even that is too much.

Q: So, is the CH₄ Methane, is that at a plasmatic state when it comes out of that machine (Plasma Gas unit) ?

K- What do you mean?

Q: You know, the unit that you showed us that makes the Methane? Is that plasmatic Methane?

K- Yes, we always said it.

Q: So, if you were to utilize that, and maybe I'm mixed up a little bit. I'm thinking that we put, you know, our soul to elevate this material, or maybe we call forth the material from the universe of the soul of CH for Methane, emerged with the gas that you created to elevate it. So you're not creating a person, or a being, (2:04). but you're creating a conscious material that has additional capabilities. ?? I am not looking to create a person, or a being, but to create an elevated material.

K- This is, what you call, this what you put in there as a CH₄. CH₄ as a characteristics, as a matter state only has certain values in combination with the Earth Gravitational Magnetic fields. But in the space, as a plasma, behaves totally different.

If you have created the shell around this (the 5 balls or new race), to hold on that it creates its soul, I can envisage how the system will work in interactive ways. In an interactive base if you look at it, this is the cycle of life, you have a Hydrogen, you have a H₂, you have, what they call, H₃, and then you have a CH₄. You can see the base, and you can see the top (of the Star Formation (SF)). This is an extremely active, what we call, amino acid.

In the body of man this will create mayhem, (2:06). 100% death within milliseconds, just by the fields of it interacting within the structure of the physicality. You'll have 16 times power of plasma, in that direction (towards the top of SF). Ratio here (CH₄ to H₂) is different, and the same ratio here (H₃ to CH₄) is different, but it's about the same.

The system will try to topple to create a base between these three (H - H₂ - H₃), a new CH₄, as a feeder at the bottom top (as the new top). You usually make your Star Formation that way (pyramid pointing up), this will work that way (pyramid pointing down). So, it creates a different dynamism. It creates a different structure in the whole cappudle. You've got to understand Carbon now becomes ?? 2 to 3 ?? 8 in a way if you look at it.

When you look at the plasma, I was talking about this to one of our Knowledge Seekers recently. When you look at a plasma, in the size, follow the volume rule. This could be one centimeter (inner diameter), this (between inner and outer diameter) could be two centimeters. But you know what is the difference in the volume? It's huge. (2:08). It's not the ratio of 1 to 2.

When you see a plasma this size (inner core), the energy in this is vast compared to the energy in this (from the inner to outer core), because works on the gravity field forces. But in the matter state you work on a volume.

This is why, when you look at electron and proton, proton is so agile, sorry electron is so agile, and so small, but so dynamic, and so much more energy to give, than the proton itself. We say, it's so much ratio one to two thousand, but the other one has the other way.

But being in the plasma, the tighter the material is, the more energy it has, the smaller it gets. But it creates a bigger field (electron has large radius around proton) that it can capture the proton.

You have to understand the whole process, and not just by, looking at it in the dimension of the physicality. You have to understand the dimension of plasma. As we say, it's not the size which counts. How much energy is in it, which will effect it. I always said, I used to joke about this when I was a student, I still sometimes do, (2:10). is you have a little toddler who is like a bullet, he goes everywhere. And you have an old man sitting in the middle, trying just to watch and catch up. Even though he's much bigger and older than the little one. It's the way the electron works, it's the way the energy transformation is, and it's the way the cycle of life in our process of existence ??.

When you look at the plasmas, and look what soul they create. Extremely powerful. So, your creature, wherever it is, is extremely tiny, highly intelligent, and quite active. And the Soul it has, it will be amazing. You have, if you understood this part, if you understood this part (what was just said about the Star Formation), now, you have to understand, one of these characters here is 235 (U), not 16 (the CH₄). Then you can see the whole dynamism of this system. (2:12). Trying to catch up with the speed of rotation, not be pulled by ?? any gravity. Then you can see the speed, passes the speed of light, 100%.

Any other question?

Q: Dean .. Mr. Keshe. Thank you for that, "the new race of mankind" ...

K- It's not a race of mankind. This is a race of John. He created it.

Q: Yeah, so mankind was a collection of intelligent gases?

K- That is all we are.

Q: Yeah, yes, I know. I know. And as you get older you come to understand this more and more. So, Mr. Keshe, going back to something you spoke about earlier on, the world leaders. The world leaders being present within the exhibition center. We've spoken about this before, many times. The actual position of a world leader walking into the building, would it be that, Mr. Keshe, (2:14). that the Knowledge Seekers, the UC and all the beautiful souls that carry this knowledge, be in part, and inside the actual room itself, would have to feel strength to, that the world leaders would not need to actually come into the room?

K- We can Satellite them. That is not a problem. But we have to bring, to show the change. Because if we don't do it, the reason I put it that way is, if you don't do it, then coincidentally something happen. You know, the human race.

This is what I said to the Knowledge Seekers who come in, once you leave the center, your new life just starts. Then, that new life is going to be joyful for some, and harsh for the others. And some go back to ignore it, because this is how they were brought up.

You'll find out, your wish is my command. In a way, my command is your wish through the soul. I want to know what my sister is up to. Then the sister calls, because I instead of dialing on the phone, the soul has made the call. Call, your brother wants to know what you're up to. And she says, oh, I was just thinking about you, and you called.

So, we learn a new way, and a lot of Knowledge Seekers will have this problem. But the more you practice it, the more you interact with it, the more it becomes. You know, nowadays, we have a command drive, or on your mobile phone with different names. (2:16). Apple has Siri. You say, "Siri, what's the weather today?" Siri, can you call so and so? Now "Siri" is your soul. That's what you've got to learn. No, "Apples," it's all bananas. So, we can do that, but it has to be the "Siri" of all the human race, collectively wanting peace to change the world leaders.

I can do, as simple as drinking a glass of water. But what would the human race (say), "oh, this guy changed, wait till the next one comes." You have to change the soul of the humanity, not just a world leader, and that is part of it.

If you look today, in the past months, we've seen how many of closes people to Putin have been killed. We see how many people closer to him, but opposition has been killed. Accidentally falling off a ship. One falling out of the window of the hospital, I never understood how people can jump out yet, We have seen the Americans doing it today. The Chinese scientists, we've seen the others do it. How come these things suddenly started, but nothing happened six months, and none of them killed themselves.

Would we reach the soul of those who actually want, or plan these things, be the world leaders or the others. (2:18). This is the process of life, that we've got to learn.

There are two ways open to us, plus 3 actually. Now you have a mobile phone, you can call, ?? electronically. We can do it physically. Now we learned the communication of our inner energy, we call it, the soul. It's faster than mobile phone and does not carry the emotion. So, when you tell a president to change, you can call him on a mobile phone, or you call him through the soul and change his emotion. So, you have to decide, and we can do a lot of things, but humanity has to do it on its own.

Q: So, to get humanity, the whole of humanity to vibrate and to be a plasmatic condition where they all contribute the same. Is that something that can be done through a social structure, or is this an interaction of the soul of man?

K- It's combination of. It's not a single solution. It's a complex, human race is a complex race, it's a complex, what you call, chemical mixing pot.

First of all people have to see. I told you yesterday, the day before, I want microphones to record people inside the system. (2:20). Very soon we'll take cameras inside the system, to see how the soul manifests themselves, to see how communicate with each other. Man has to see it.

Then we see the discussion. When I listen to a lot of these recordings, prior to you getting your camera and microphone in their hand, I see so much, I get so much information that you don't even get it on your recordings. Some of it comes through the knowledge, some of it comes through the emotion, some of it comes through understanding of the soul. You sit there, you put your camera and you take a physical picture.

They sit in front of me, or I stand in front of them. They talk, but I see the soul, and I know how much of the information they give me has matched to the STP and physicality. What do I need to change in there, if I need to. Majority of the people coming out of this system they don't like. Because standing in front of me, I see both. Feel the emotion of it.

We have people who come deliberately to prove their move, that they cannot be touched, or the system does not work on them. I had one this week. Because with it, not confirming, not working. "I see I am more" ?? balancing. "Oh, my soul doesn't work, my doesn't this." I want to know what you cry at night with it. (2:22). So, it's us bringing amalgamation of all together to create a new race of leaders, that all of us are leaders, not just one or two, and a few with a big bank account.

Q: So, what you spoke about when people have this thought, and then someone phones them. We've all experienced this, the whole human race, I think, experiences this. So, we all know that this conscious thought has a field strength, that can manifest and touch other souls on a soul level. So, we all have this. So, it's just about bringing about a field strength on this beautiful planet that brings it to a position where... ?

K- No, it's the wrong way, it's the wrong way. The right way, I think, should be the recognition of it. When you recognize this power, when you recognize this potential within you, used the right way, then you can bring those changes you want. Realizing that, that is the key, and it's how we perceive it for to fit us.

One of the Knowledge Seekers sent me a picture recently past few days, where there's a conference of the nuclear, what you call it, annual conference, whatever in Vienna. I never understood, when I looked at this picture, what Bill Gates has got to do with nuclear industry. This man is so power hungry and now he sees, (2:24). I can be somewhere. And then, what would he influence?

He has a, what I call, complex structure with him. But why do we see a man who started in a garage, built up through his money, the power base, that now he influences all of our lives through our computers, or whatever, running to pharmaceutical to affect all of us

through that. What has he got to do with nuclear industry? Which end of the atom this guy ever understood, that now he's there for what reason? I call it, a hunger for (having) the name to it, when I saw the picture. But, what is the game of this soul? And where are we going to see problems? Because wherever he's gone, he has created problems in the recent past. To own, it means to get involved. To be in it, to get involved with it, it means, with the money I have I dictate.

Didn't he work hard enough some years ago trying to take over the Keshe Foundation. In their work, he sent his protégé, the other guy, trying to butter us up, to take over the Keshe Foundation.

Q: Mr. Keshe, why does he need so much energy?

K- He doesn't need energy. (2:26). This guy has a different agenda. Own, I have to own, because the first thing I took, I stole. So I can steal everything, you understand? So, he stole the technology of Microsoft from the Apple boys, he got away with it. So, he's become a thief by nature, because I can get rid of everything, I can buy everything, now I have money I can do. How he financed the biggest, one of the mass murder guys to become the head of (World) Health Organization. Anybody who calls about ethic, doesn't put such a man financing and backing, unless he has evil intentions. And we saw what he did with us in the past two years with the humanity. God help man with this picture, we see in public.

Q: Mr. Keshe, can we not change this condition with our thoughts collectively as one?

K- This is why we are setting up this world leaders (session). People have to learn it, they have to feel it, and they have to bring that change with it. It has to be done by being part of, being inside it, testing it, tasting it, and seeing the change of it.

If you remember some years ago, we asked you to deliver the peace message to the world leaders, a lot of you went to the presidential palaces, and blah, blah, you need a lot to do. Now they come to you, by your decision as a collective Knowledge Seekers, (2:28). that you deliver the same thing, instead of a piece of paper, or email, directly to the soul. I promise it will work 100% better than your emails, all the letters you gave to the office of the presidents, the kings and the prime ministers of your country.

Q: That's so powerful, Mr. Keshe, what you've just said there...

K- It is the reality. You have to do it.

Q: I know it's the reality. When mankind really understands this, through the ethos of the Foundation, through the teachings, it's gradually getting out. However, when people tap into this, like to this very conversation right now, and they actually understand the true, the beauty that they have, they hold, they have, then maybe we will, not maybe, in this moment we have this condition. Where we have no need for this constant conflict that happens for a few to have more. It's just, it's ridiculous.

K- You see, when all man will be equal in the dimension of the Soul, then the STP decides how this equal position will be achieved, as the physicality is ?? comfort with it.

You know, the ex-Shah of Iran used to have a habit, he used to dress as a common man and go to shops, to go to, what you call it, bazaar, and everywhere, without anybody knowing him. He used to do that quite often. (2:30). To see how his people love him, how his people react, and how his people live. Very few world leaders have done this. The ex-Shah of Iran used to do this habitually, he used to do it to see how people are. Every now and then he was spotted, people realized who he is.

But what changes these things brought to his soul? Why do these people need to do this? To understand to be able to be part of? So, it is what we want to be. When we call the end of kingship, "oh, he is "anti-Belgian." No. Because we're all kings. When we are Souls, are equals, when we understand the same thing equally in the Soul level, it's the physicality, it could be handicapped or whatever. Who's the king? Do we, are we, can we live with somebody, which at soul level is the same as you?

How come when it comes out in the physical dimension he should be ex-Shah. A few European kings and queens go public, they live, they take a public transport, they live like others. (2:32). But still carry that stigma of being a king or a queen. But they try to be as normal, live as normal, and be part of the society to understand the society.

Q: Mr. Keshe, a true leader, a true king gives, becomes a giver, he is not there to take from others to receive, it is to give.

K- A true leader live amongst his people, not separate than the people. We have not had many of them in the life of the man. You don't lead from the front, you lead amongst, within. I always stay a Knowledge Seekers, because you learn from where you stand. That's how man will become to be. Understanding the knowledge of the Creation will overtake all man's greed for physicality, any greed will be ?? gone.

Any other question?

Q: Thank you very much for answering my questions Mr. Keshe, and thank you for bringing this forward, and...

K- I answer enough of your questions on the floor (of Linz Uno center) when it comes. (2:34). You've got to understand, it's usually two or three of us on the basement floor when we do the flight tests. If you have visitors they're all upstairs, and it's Dean, and me and maybe a couple of other people. We've got nothing else to do. We just walk in this seven, eight hundred square meter property waiting for the next change in the room, or next person, and the next case. Somehow we ask questions, or we do something, or we pass part of information. But, you've got to understand it's 7, 8, 9 hours sometimes in the same space walking and ??, to see what happens inside, and what comes out of it. It's just like an expecting mother. Sorry, an expecting father being outside the delivery room, see what comes out of the room. What kind of animal will come? What kind of creature will appear?

Q: Interesting times to follow Mr. Keshe.

K- I hope so, I hope so.

Any other questions?

Q: .. So, Carlos wrote here in our group, he's from Brazil. He would like to know about the formation that you have in front of the table of the people who are witnessing, who are giving their testimonies in the flight system. He noticed that have some Gans in front of these people, of the German couple, and they are in a Star Formation. So, he would like to know what kind of Gans you have there, and if they are really in a Star Formation?

K- I will tell you how they are placed. They are placed, more or less, by the lady who cleans the center. Every time she cleans, she picks them and put them somewhere. So, there is no (Star) formation, she just puts them there. Initially, when we did the first setting, it's just random. It changes every couple of days when she cleans the television section of the recording. (2:38). So, there is no formation to it. This has been brought up from upstairs, from the, what you call it, the showroom. It's just to have something. Usually you have beautiful sculptures or something, and these bottles are a "sculpture of science." There's no pattern. The lady who does all of our, what we call, cleaning our ship, and she's not a Knowledge Seeker.

Any other question?

R: Thank you for clarifying, because there's probably lots of speculation about that.

K- I think Dean moves more than anybody else, here and there. Because with Dean, everything has to have the right lights, and everything and right position.

Q: Yeah, Mr. Keshe, I'm always moving the lights, and those Gans's on the table. I've noticed myself, I don't know why. But, you know, you've seen me many times, I go and sit there, and sometimes when I'm waiting, as you say, we walked around in circles, and we're waiting for people to come out of the experience. And I go and sit and I see myself sort of gravitating around these different Gans's, and obviously receiving some energies from them as I sit in different positions. I've observed myself doing this. Yeah, it's an interesting position to be. Yeah.

K- Oh, we just walk around, we move things. We've got nothing to do, we're a bunch of people just hanging around, we move things till the next soul comes out that room.

Q: It is quite amazing .. the physicality is there, (2:40). and then knowing that the soul is underneath it, and knowing that they carry this wonderful, beautiful, incredible energy. They're all being drawn like the magnet is drawing in, and this field strength is drawing in the souls into this position, and they're taking position. Then as you say, and then they're coming, becoming Satellite Souls that are then going out and spreading around the beautiful planet Earth this wonderful field strength that will bring about this wonderful condition that we all in this moment have, and we'll and we shall have.

K- One of the things which comes to me quite often, is that this is a knowledge. That is, I call it, a revolution in science, in a technology. The way we came, and we've got restricted by, what I call, certain governments, and for their own benefit, has allowed us to bring out, develop the technology amongst people and, what they call, underground scientific structure.

Which when we show the first transmutation and everything else, will blow out itself into total different directions and dimensions. So, you people travel from all over the world to go through, and see and feel an apple, an orange, or apple pie, or whatever. (2:42). But the implication of when the technology is, as it's coming out, will be so strong that no government can hold it back. It's, what we call, knowledge growing openly, but kept under the surveillance of not being in public, but it's still growing.

When you look at the number of people come all over the world to Linz, and how they come, and the cultures they bring with them. We have touched every nationality and race on this planet, and our Knowledge Seekers who are in there, and they are developing it, they are bringing it out, they're producing materials, they are doing all sorts of things with it.

I have to stop for one second and come back in. I received an urgent message, please. If you can play a commercial for five minutes, I have to respond.

<<< Waiting for Mr. Keshe to come back >>> (2:44).

K- I'm back in. Sorry about that. Saved by the bell. No, something was urgent, which had to be done, ?? urgent.

Any other question?

Q: Salomea .. I was waiting for you. I would like to ask you, if you will be in a political power, what do you will do to get peace right now, taking into account the international context? I had a dream with the Secretary General of NATO deputy, not as a prime. And he asked me in the dream, why I'm silent, and why I don't find solution, because he's waiting for some solution from us. So, I now I make clear my voice. And I'm asking you, because I am so interested in your wise solutions in the physicality, (2:46). not only at the soul level, because at the soul level we know all this. If you have some ideas, we will thank you from the bottom of the heart, thank you.

K- Entering politics is not our job. I've been pushed in past a few months, especially from the sources who know, and what we do, to enter in politic in Iran. And especially in past few, two weeks, I get more pressure to. It's the time, it's a mayhem, you know, you can go back in and you will find people will respond, and they are looking for somebody to change. That's not our job. I am not a politician.

The changes, what we can. I come from the structure, I understand the Iranian politics, and the wealth and whatever it goes with it. But politics is not my place. I'm a

Knowledge Seeker. I change, I bring the changes through the knowledge, and seeking for those who appreciate it, and they can use it to expand the peace and, what we call, unification of mankind.

This is not the first time I've been asked to enter Iranian politic, and they are backing me with billions of dollars. I always said, the man who enters the politic has ended his life. Because in the world of politics you are as good as long as they get their way, what they want, and then you're a dust. So, the world of politics has no meaning. (2:48). But, with technology and science we create the politics.

I always used to say, I have many, many friends in British Parliament, and the House of Lords and in the hierarchy of the British, I lived there for 30 years there, totally different ?? I always used to tell the politicians and they used to laugh. I remember going to the House of Common's meeting, once I was with a couple of Lords on the dinner table, in one of this Gentleman Clubs, as they call it. I always told them, you are politicians, because of us businessmen. We find you. We tell you what we want, we support you, and when you go in there, you're servants. So, knowledge people, businessman, scientists who can work and influence it, actually are the politicians in the politic. If you can't pay for the advertising, if you can't pay for promoting a politician, politicians go nowhere.

So as scientists, we decide, as men of influence, we decide the politics of the nations. But this time, we as scientists collectively, as Knowledge Seekers, we decide the politics of this planet scientifically, which is more powerful than actually going in there and sitting in the parliament and just shouting, and nobody hears you.

As many of you know, I've said it before, a ticket collector in the Underground's of London, because she inherited some money from her father's village in Ghana, became a member of the Parliament. One of the first things she did, (2:50). she called me when I was in Ghana, and said, Mr. Keshe, can you tell me what I have to do as a member of parliament? Where can I make the maximum money. I might be here just for one session. Can you show me where I can steal and get as much as possible? Have you seen.

Then you have a president of a country who has been a security man in ?? in London. Now he's a king, or president, or was. So, time is short. With the technology, we can change everything primarily. I'm not in the world of politics. I ?? don't want to get in the world of politics.

The Iranian people have offered me a very lucrative deal. Come in, there's a mayhem, bring people together. You can do it. It's not my job. I criticize the government, I criticize the leaders, but that criticism is a positive criticism for not to go where ??, and is listened to. As one of our Knowledge Seekers was telling me, Mr. Keshe, everything you have suggested to the officials here, we see it happening. They're changing things as you advised.

But we advise in the background to the other sides of the government too. I don't see what is happening in Iran the correct way. But you've got to understand, if they don't do

what they are doing now to the population, they won't be in power. They are fighting for their life, Iranian leadership. It's not the riots on the street, that they're trying to stop. (2:52). If they take over, they don't have life, we saw the same with the Shah, they came in the same way.

You don't remember the riots, the students on the street? They know the way they came in, they are going to go out, if they don't kill as many as possible. It's the survival. They're not doing to suppress. Either way, many lives are involved, and I've got nothing to do with the life, that stands to be lost. Politics is not for me. I play enough politics with my teachings, and changing a lot of things. But now let the world leaders do what they like, because .. I always said, they are here for one term, two terms, and nobody will remember them, they become a number, president number 40, blah, blah, or 10, or whatever.

My technology will last for the life of humanity and beyond in the space, and that is the true politic, when you can bring the true peace. Let them battle for the spoons and forks. The plate, the food on it is with us, among us Knowledge Seekers.

Any other question?

Q: .. There's millions of Knowledge Seekers in the world who cannot afford to go to Linz and assist with the changes that Mr. Keshe suggests. So...

K- My Soul can accommodate millions. So, no problem. (2:54).

The whole structure is set in a specific way, one day I'll explain. Soon we will explain it. Even this, I had to go off the line and come back, was because of that change, that structural changes that Keshe Foundation will bring in. It needs to be done step by step.

There is a principle, I always lived by it, and it's part of my life. When you give something free to someone, they have no value for it. When you pay for it, you respect it, and you'll stick to it. When it becomes part of your life, you'll know how to handle it the correct way. This is why we put it that way. You see, people come in and say, it's their right to be a Knowledge Seekers, that we're there because I am. We've seen so many of them, and the mayhem they have created, and we see people come in. They value their work for what they get, and what they bring.

It's not that they cannot afford it or is expensive. It is, and always been, what you pay for, you respect, and what is given, it's just another, what I call, piece of toilet roll. People don't have respect for what they don't pay for, it's the human nature. In the future will change. It will come by the service, not by paying. But that's a different thing. (2:56).

Any other question?

Q: .. I would like to understand more about the opening of the cells. How would this opening of the cells that you mentioned, be? Could you speak and define in more detail

about this process. What happens when this opening of cells takes place? What is required for this to happen with the cells? Does it require a special emotion for this to happen?

K- Yes, it does. Human race could create this emotion of separation of the cells, as they do with the amalgamation of their cells. When you amalgamate them you create cancer. When you created, you can create separation or expansion, as our friend said in the recording. When we create that fields of the cells together, a father creates a cancer for himself, or a mother for herself, or we create it in different ways of it.

Man, within the structure of his DNA and RNA has a chemical creation, and control of the use of that chemical created, through emotion. Early men used to do it, as a mammal. If you had a tail, it got trapped under a stone, millions of years ago, you didn't die, you created that condition, you released the tail, and you made another one. The way some reptiles do. (2:58). It's not exclusivity of them.

So, to do that, you have to create, what I call, dilution of cells. Cells are magnetic fields. The way I told you many times, you can put your hand out and create a gold in your hand or light. You, through the same emotion, you create separation, expansion of the cells.

You have to learn this to be able to go through transmutation. Then bring the fields of it, that according to the environment of, creates the physicality of. I transfer your soul, your soul cannot be touched. I transfer your STP, which is an energy of you. But when I transfer you in a physical dimension, the STM, the STP of the man in the interaction with the environment, dictates how the matter state or, what you call, life, the state of the fields of the energy will reset themselves.

How suddenly with two hands and two arms, you have four arms and four hands on the Moon, or in another position. Still the same cell combination, still the same energy, but condition of the environment. So, it's a natural process, we have it in our RNA and DNA. We just control it through the technology. This is what I keep on saying, and I've said it many times.

Up to now it was theory, now it's a technology, because it can be replicated, we can make machines to do it. So, we can always open it up and do it somewhere else. I can put you in that flight unit, (3:00). change the environment on the right side and get you as a fish out. But the problem is, I had to find a water tank to put you in it. But your problem is, was it your wish to become a fish?

We'll test this in the coming time. The new machines allows us to do this, with these machines we have now we have a lot of limitations. Once the two new units, and the other two vertical units come in, then we have a huge versatility, in moving and creating condition of the destination.

We can create the condition of China, and send about from London to China, and he'll come out as a Chinese. He'll understand the culture, he'll speak the language ,and he'll

understand everything, and he doesn't, in a way, the soul of him inside of him says, what is going on, I learn Chinese, but I ?? can speak Chinese, and become looking Chinese.

Interesting, listen to what I said earlier on. The lady tells us, she holds a mirror and she cannot see herself in the mirror, through the expansion of the soul. The couple came in yesterday, they are so beautiful, I didn't have much time with them. I have invited them to come back in. But, they live a life of, and the things they do with the plasma and Gans's is amazing. It was a pleasure to see them and see how they have evolved the technology to suit them. She tells you, I hold the mirror and I can't see, or I see in the mirror the light in the back of my head all the time. She said, I could see the light in the machine. Or gentleman sees a coverage of that vision is not the ?? true interaction of the soul. (3:02).

These are what is to come and how we see the new technologies will give us a chance to do it. If the world leaders know that they cannot hide anymore, because their souls lead them to justice, none of them will do wrong. None of them will take up the banner of leadership. Because they're scared of what the souls might bring to them, or maybe their soul brings them to. It is in the writings of Bahauallah, bless his name, he says, the time will come that no one will take up the crown of the kingship, as all man will be equal. Now through the technology and understanding the power of the source, we understand the beauty of the message. Because now we see as soul, we are all equal.

When a leader says to his soldiers, or his, those who execute his power, literally, "plow the man in the streets and throw them away like a dust." .. That's the time when there is no kingship. That's the time when you lost. And this is the message of Ayatollah Khamenei of Iran in past couple of weeks to the army. You treat your citizens, (3:04), that you can be proud to throw away. You have to understand, you must be very desperate to get in that position. You don't need to get into politics to change, they change it themselves with their own lack of understanding of what's going to happen to their soul. You don't need to drown the man, his ?? soul ?? will drown him.

Any other question?

Q: .. In the image that I see on the screen right now, I see this Materials Enhancement Unit behind you. Is this technology been brought forward to be used? Is it available?

K- Of course. I think you took this picture, or someone took the picture. The manifestations of it is the Plasma Gas Power Unit we showed. We convert energy to gas. The gas methane and others we showed, is a true use of this technology, but in a mini version.

Q: How's that coming along, Mr. Keshe? Is that taking position?

K- Oh... We have produced, it's just matter of, (3:06). we're hoping last couple of weeks to be done, and there were technical problems, and they had to get help from outside to make some of the new materials to make it secure. I think, I asked yesterday, they need time to do it, the power generator.

It's not producing the material, it's the technicality of the new structure. It's not a technology problem. It's just getting it right, that it stays there, because it's going to be

very powerful. We, what you call it, it will be shown the minute they finish with it. We produce, we can produce any kind of gases. It's just that the team in the lab have to get at it. The minute they do one thing, something else goes wrong, trying to bring a new technology in with it. But in principle, as we've shown, we can produce anything we like.

That's a conversion of fields into matter state. Then, because you produce in the Gans state, then the matter state has to decide how, through the STM it's going to be used. It's very, very interesting. You haven't understood what this gas unit is yet.

Q: I sort of understand a little of it, Mr. Keshe...

K- It's a system with a soul. If you understand what it is.

Q: Yeah. And the applications for humanity, once it's released?

K- Many Knowledge Seekers have already placed order, purchasing this. The implication of it is, yes, implication will be very huge. (3:08). And things are not happening the way it should to happen. Then I look at it in the way, that it's not the time for it, it needs a few bits of extra time.

It's like what we all participated to support this funding, that the next change will come, and it's just nearly 11 months now we come to it. But you lot know about (only) for past 4 or 5 months. Many of you contributed more to it, to come and loaned the Foundation funds for it. And it is not happening.

Because I sat and I looked at it yesterday, and I said, why the heck not? Then I looked at what this is supposed to do. What we talk about this Gas Unit in the background (the Materials EU). Then you hear about the explosions in the pipeline number one with Russia and Germany.

The implication of that pipeline is, "the last chord you cut off the connection between the astronaut and the station." People have not realized what it means, this blow up of a pipeline in, what we call it, between Russian and Germany in past few days. Whoever has done it.

We should look at it in different way from Keshe Foundation point of view, with the technology we are putting back in. Makes, and going through German government and the others, would stop kingship through fuel and energy. It pushes for these new technologies like ours to come into public. Because, expecting, understand, the government's, 130 billion has been promised by British government to support with the fuel problems. Now we'll see more in other European countries. Germany is spending backwards. (3:10).

I'm waiting for one tipping point. When that tipping point comes, even when I went off the line (to answer phone call), that was part of that tipping point. When that tipping point comes, I will change the running of the nations in Europe with a flick of a finger. And you Knowledge Seekers in Germany, in France, in Italy, will be spearheading this. You'll be spearheading this beyond your imagination.

I explained this to a couple of Knowledge Seekers, what I'm going to do. But if it would have happened six months ago, it would have had no influence. If it happened two weeks ago, it still wouldn't been there. The time is coming for it, as part of the way we do the space technology. We get into that tipping point of the technology to bring the change. Whoever blew this pipe out, in a way is, whatever stupid thing they've done with it. But it's part of the overall soul of the change to come. It might sound stupid to you. But it has so much truth in it.

Five times, six times, some nations nine times the energy costs compared to last year. Food crisis because of the energy prices going up three, four, five times. People can't afford it, they can't afford to eat, the pipeline is cut, can't afford to feed, because the prices are going beyond. If you lived in England, like Dean, (3:12). many English people tell you this is the "talk of the town," ?? everywhere. How many old pensioners, who live on the pension, die in England, because they can't afford heat. Or they have to live under blankets and boxes in the wintertime, because otherwise they can't afford food. Now the Western Europe will plunge into it.

Asking me who blew the pipe, are the Americans. Asking the Germans, it's the Russians. Nobody will be benefited by this pipeline blew up, than the Americans. Now the West has to rely for all the fuels, gases, and whatever, and the food, which comes from US. They've done it in Second World War. Now the whole of Europe is incapacitated. And understanding that British policy transfers into American policy, as their soldiers, then you understand BP will control everything.

So, two weeks, and I'll explain this, we are waiting for that tipping point. I'm sure you Knowledge Seekers in the rest of Western Europe will thank you for the knowledge you carry. Just waiting for that change. About 30 days, 60 days if it happen, if we want to, it will be done.

Q: Mr. Keshe, many souls, many people that are in the position where they, you know, they're experiencing discomfort because of the conditions being created. (3:14). Would ask the question, if the technology is there now, why would it not be just brought? Why do you not bring that intention forward in this very moment? And...

K- You did not respect us when we gave you the MaGravs. You did not respect us when we gave the others. Bunch of abusers. So, we choose the time. If you're not hungry, I put the most beautiful dishes in front of you, you are not hungry yet. It will be nothing. But when you're hungry, I put a piece of old cooked meat in front of you, it will be the most delicious food. And the West has to go through this. Has to go through this. It's part of the change. None of the things you see happening is just coincidental.

Q: So, the West has to go through this to pay back the balance, is this what you're saying?

K- No, not the West, the whole world is paying for this. The only place you get a free gas is in Iran, as I call it. But the whole of the humanity .. is going through this change. The guy in Africa in the jungle has no care how much the tomato is going up, what heating is

going to be, what gas is going to be 10 times. It matters to the Western world, and the western world is keyed up for that change, to bring, and to change.

One of our Knowledge Seekers from Australia call me a "globalist." No, we are a "play-ist," we know when we play, that it is fair for everyone. We have learned from you. I told many times, it's not time for it. The thing is going to happen.

I was telling you yesterday, it was supposed to happen yesterday at 3 o'clock, but it didn't happen. (3:16). Today, we're waiting for it to happen. It's not the right time for it. Because when it comes, it will be a "switch time." I know, we're preparing everything for it to be that "switch time." It will not happen one day earlier, or one day (later). When the rest of this structure is set up, for the souls to come here to do it. Then we'll bring. You will give the knowledge, we gave you for it to ?? happen. What all of you have done with the MaGrays? Nothing but to harm us. So, this time, we make sure you don't harm yourselves.

Q: .. What do you think would be the reason for the Pope suddenly to command all money from the Catholic communities, all over the world, to transfer all funds back to Rome?

K- What you mean?

R: I've heard rumors of that, or some sort of regrouping of the finances.

K- Has the Pope been to the casino last night, and lost everything in the casino? Which casino did he go to. What they call it, "the slip has been called in." I don't, I haven't heard about this.

You have to understand, (3:18). these people on the name of religion do a lot of other things. We have a good connection into Vatican. We hear a lot of things, which are not supposed to be heard, most of the places. You've got to understand why, if they do it, and how they're doing it, or they want to collect before it comes the end of them, at least they'll have all the money in there.

I don't know if you seen it, there's a picture of wealth in Vatican. You know, you have a pile of coal, you put in the fire, the coal in. There are pictures from parts of Vatican, which gold coins and jewelry items are stashed away like coal. He just sent the bulldozer to see how much it brings into the shovel to take it out, and they spend it. Literally there are places in Rome, within the Vatican, which gold, which you respect and you put it on your ears, on necklace, have so much value, they shovel it.

Now we have to ask, how much more they want to shovel. As I said many times before, every time you see Pope going somewhere, you see the plane of the Pope landing, walk around the airport and see how many cargo planes have landed to wait to be loaded with gold and go back to Vatican. When the Pope goes to Brazil, when the Pope goes to, what you call it, far East Asia to Thailand, and the rest, (3:20). and that part, there are six, or seven, ten, sometimes, cargo planes, jumbo jet cargo planes, sitting on the runways waiting for, as the gold is transferred. That is the way Vatican collects money. If they call

everything to come in, maybe the Pope has lost a little bit too much last night in the casino.

There is another side to Vatican. It is, first of all, Vatican doesn't hold much gold reserve, because it has transferred it all to Germany, to Berlin. Secondly, they see problems in the Western Europe, in the Catholics, in the syndicate, what you call, EU. And they need that to backup the second round of poverty, and the problems that the, what you call it, the Christian community doesn't change.

There's a big problem, a huge problem. I was explaining this yesterday and the day before. In the West, people who live in Asia, and the rest they don't understand this. It's beyond your comprehension. In the West, Western Europe, or most of the western Europe, we call it, what used to be Western Bloc, not Eastern Bloc. There's a large community of immigrants through, whatever they come in. We've seen it clearly in the last two elections, especially in Italy, the far-right has taken place, taken power. (3:22). If the time goes rough, the first people they blame, as we've seen in the election of Italy, will be the foreigners, people who are not Italian, not Germans, not English, and the rest. We'll see they become the target of a lot of harsh time.

I see that coming up. Vatican encourages these harsh times. And to do it, they need to siphon money into the natives in a different way, that allows them to become racist towards the others. This is 100% on the card. We saw it in the elections in Italy, and in the past two or three elections around Europe. One of the fairest ?? conditions governments, countries we'll see will be United Kingdom, in respect, to even, there is a lot of racism in UK, compared to what's going to handle it, what it is going to accepted ?? to stand by.

Secondly, England is an oil ?? rich nation. It will not ?? suffer as the rest of Europe, as such. But, you will see this coming up in a very short time. Vatican, the way, if you remember the prices a few years ago, when the Ireland, the Portugal, the Spain, and Greek went into financial nosedive, suddenly out of nowhere, everything was good. Because Vatican didn't want to bring change in the Catholic union of the European Community. Then they paid for it afterwards, we saw the gold went to Berlin, to Rothschild. So, they're collecting for that loan, (3:24). collecting a bigger portion to go to, what you call it, to Berlin. That could be one of them. ?? I haven't read about it, but it's part of the way they do it.

Thank you very much. There's something I forgot. A number of you artists are approaching Keshe Foundation to do artwork and send it to us to sell, or to promoting in the sale, in the shop, or in the Keshe Foundation Store. We are looking at all of this, we have accepted a number of paintings from these artists.

We are looking for the sculptors, who use the Gans technology in their sculpture. Artisans is anything, which you use (the Gans) and it can be done. We support you. Now we started selling. Even this week we've received a commission on paintings to be done by our Knowledge Seekers.

So, if you want to carry on with what we started, we can support you. I know Knowledge Seekers are sending their pictures, or paintings through the post now to come to Linz, that it is going to go for display. Now we have to open it, because these paintings are becoming more, and more. And others sculpture work, any unique work you do which work's with the Gans. It doesn't need to be wood or glass, it could be anything electronic, which actually works, and (is) artistic. Pottery and that kind of thing. We can support you. It's something we have expanded into to support Knowledge Seekers to have a living from knowledge they have.

New pictures, I think you will see coming up in the next few days into the shop, as the paintings arrives, and it gets categorized into the things, and if you want any painting to be done, or we have a sculptures, or you want to sculpture something with the Gans's, or whatever. (3:26). You make something handmade, still there for the Keshe Foundation to support.

Thank you very much for today. Thank you very much Rick for everything in the background, and we see you next week.
